STAR ROSE GROWERS

"REMEMBER THE STAR"

OVER fifty years ago, Alfred F. Conard, the honored founder of our firm, began business in West Grove. It was here, later, that he conceived the idea of growing own-root

work as vice-president and superintendent of The Conard & Jones Company. Over a half century's experience with the world's Roses has but strengthened Antoine Wintzer's love for them, and added to the knowledge and discrimination which helps us "make" THE BEST ROSES FOR AMERICA.

Roses, to send by mail to all the world. He prepared the first Rose mail order catalogue. He placed the first Rose mail order advertisement. He lived to see vast and beneficent changes follow. A thousand homes now enjoy the queen of flowers where but one had Roses, before he made possible their widespread distribution. He has passed to rest, but his fifty years of labor forms the basis for our ability to "make" THE BEST ROSES FOR AMERICA.

The enthusiastic young man, whose devotion and ability as a Rose-grower made possible Mr. Conard's success, retains his enthusiasm and continues his great

To Whom It May Concern:

It affords us pleasure to testify to the high character and standing of The Conard & Jones Company. It is composed of practical, up-to-date nurserymen and rose specialists. In our opinion, any statement they may make or any agreement into which they may enter can be absolutely relied upon.

INSTRUCTIVE BOOKS ON GARDENING

Do you know how to grow good Roses, good Carnations, good Chrysanthemums, good Violets, and have you learned how to get most pleasing results from your hardy garden? If you really want a thorough knowledge of any of the above subjects, these books will, if carefully studied, give you more information in an hour than you could acquire by experience in years, and when you consider the cost and disappointment of a failure in your flowers, you will agree that it pays to know how to grow them successfully.

A Woman's Hardy Garden. By Mrs. Helena Rutherford Ely. A most-popular book; full of practical information about hardy perennials, shrubs, bulbs, etc. \$1.85, postpaid.

Bulbs and Tuberous-Rooted Plants. By Allen. \$1.50, postpaid.

American Carnation Culture. Varieties, classification, propagation, etc., by L. L. Lamborn. \$1.50, postpaid.

The Chrysanthemum. By Arthur Herrington. Varieties, how to grow, etc. 50 cts., postpaid.

The Practical Flower Garden. By Mrs. H. R. Ely. 300 pages, instructively illustrated. 8 color plates and numerous half-tones. Tells in a common-sense way how to grow flowers. Price, \$2.15, postpaid.

Garden Making. By L. H. Bailey. Suggestions for utilizing of home grounds. 417 pages, 256 illustrations. \$2.00, ppd.

House Plants and How to Succeed with Them. By Lizzie Page Hillhouse. 220 pages, cloth-bound and illustrated. \$1.00, postpaid.

The Practical Garden Book. By Hunn and Bailey. 250 pages of instruction regarding the growth and care of flowers, fruits, vegetables, trees, etc. Price, \$1.00, postpaid.

Germination Table, with Index to Flower Seeds

It is important to know the approximate time required by seeds for germination in order to sow them with satisfaction and success. Many seeds are condemned and neglected before they have had sufficient time to start. Always divide the packages and sow at different times. You can then give them a second or third trial. Sow seeds that start about the same time together. Keep the seed box or bed moist, but not wet, and do not let the soil dry out until the seeds have had ample time to germinate (see Self-Watering Boxes, page 96). Seeds are influenced by conditions, and the plants may appear 25 per cent. earlier or 25 per cent. later than the table indicates, according to circumstances. Following is the page reference and the key to germination: a, 5 days, b, 8 days, etc. The star (*) added means that the seeds may take much longer time than stated, some lying dormant for weeks or months before starting.

5 days 8 days 10 days 15 days 20 days 25 days 30 days 50 days Indefinite

For the convenience of our customers we have employed these signs to indicate the class to which belong the varieties opposite which they each appear on seed pages.

- **Annuals.** These grow, flower and die the first year from seed.
- **Biennials.** These grow from seed one year, bloom and die the next; if sown early some varieties bloom the first year.
- △ **Greenhouse Plants.** Start seeds inside, transplant outside when all danger of frost is over.
- ⌒ **Perennials.** Continue for several years, and bloom annually after the first season; some varieties, if sown early, bloom the first year.
- △ **Stove Plants.** Grow inside all year. For pots only.

§ Climbing Plants. Climbers.

Flowers from Seeds. Any ordinary soil will grow beautiful flowers if you make it fine and mellow, and plant about the time the fruit trees are coming into bloom. Very fine seeds should be merely pressed in with the hand, therefore do not cover too deeply and do not plant when ground is wet and soggy.

Do not allow plants to stand too thickly; transplant if necessary. If crowded, they cannot grow or bloom satisfactorily.

Transplanting. Nearly all flowers are improved by transplanting except sweet peas, poppies, nasturtiums, etc., which are usually sown where they are to grow. By starting tender seeds in window-boxes, hotbeds or coldframes, and transplanting at proper time when ready, you escape danger from frost.

THE ROSE-LOVER'S CALENDAR OF OPERATIONS

These dates will be found relatively correct for the average season in the latitude of Philadelphia. If you live North or South, make usual allowance of about four days for every 100 miles of latitude. Comparative altitude must also be taken into consideration. The seasons vary; for example, the ground may be in good condition and ready for digging, one year, as much as three weeks earlier than it is the following spring.

FEBRUARY

Make your planting plans, and send in your order.

MARCH

15th. Such hardy Roses as you have already planted should now be pruned.

25th to 30th. As soon as the ground can be well worked, plant new hardy Roses which are to be had dormant. Prune these even more closely than older established bushes.

APRIL

10th. Less hardy Roses, including the Everblooming class, should be pruned. Begin to remove the winter protection as the increasing heat of the sun permits.

15th. Roses are not immune from mildew and other fungoid contagious diseases, therefore it pays at this time to spray with Bordeaux Mixture all your beds, and near-by fruit trees and grape-vines.

25th to 30th. Finish uncovering and pruning your Roses. Plant new ones (now or until May 10th). A slight protection over the tops will prove an advantage.

MAY

1st to 10th. As soon as plants are well set with foliage, a spraying with Nicotine or Sulpho-Tobacco Soap will act as a preventive against Aphis (Green Fly).

20th. As soon as buds begin to swell, weak manure water may be applied to the plants. Spray again to kill off the aphids, otherwise they will multiply with amazing speed.

25th. Now starts the season's procession of bloom, led by the sturdy Rugosas and the Yellow Briar Roses. Start feeding the Hybrid Perpetual Roses with liquid manure.

JUNE

1st. With this month we see the true glory of the "Feast of Roses."

5th. Watch for the Rose beetle and Rose slug, and spray every ten days for three weeks with arsenate of lead (1 lb. to 10 gallons of water).

Where to Grow Roses

"He who would have beautiful Roses in his garden must have beautiful Roses in his heart. He must love them well and always. He must have not only the glowing admiration, the enthusiasm and the passion, but the tenderness, the thoughtfulness, the reverence, the watchfulness of love." So wrote Dean Hole, the rosarian of beloved memory. And would that we Americans had more like him to spread the love, not only for beautiful Roses, but likewise for the wholesome pastime of planting and caring for the Queen of Flowers.

The average home grounds, as a rule, has several available spots for Roses. An eastern or southern exposure is preferable. The presence of trees is not a disadvantage, providing the Roses are not within reach of the tree roots which will rob the bed of its plant food. Given five or six hours a day of sunshine, preferably in the morning, a good circulation of air (but secure protection from sweeping, withering winds), and good soil with proper drainage, and you have what is needful.

The drainage problem is easily solved. If your soil has a tendency to remain wet or soggy, plant a layer of stones in the bottom of the bed at a depth of 2½ feet. Roses abhor wet feet.

A rich, deep clay loam is the best soil. If it contains grass roots, or is made up of rooted sods, all the better; any ordinary soil will answer, providing it is well manured.

Climbing Roses, themselves, if given a fence for support, make a good protection from the winds and add beauty to the barrier.

Observing the above suggestions, now let us choose the identical location for our Roses. "Make a picture of your lawn" is a first principle of Landscape gardening. Leave the center open, and plant about and along the edges. Border your walks with flower beds, the base of the porch and the corner across the open sweep of grass, and you and your friends can enjoy a complete and unbroken picture.

After this, place your Roses where they will do best and give you most pleasure. Some varieties, as—for example—the Rugosa and wilder types, serve a very useful purpose when grouped among the Shrubbery (for many other uses see pages 28 to 34); but the bush or garden Roses, such as the Tea, Hybrid Tea, and Hybrid Perpetual varieties, will do best if grouped together and not mixed too much with other plants. The size and shape of the bed may be laid out to suit the location, though it is well to remember, in making large beds and Rose gardens, that you should be able to cut and cultivate the Roses without treading on the loose soil; therefore provide for a pathway between every three or four rows, or else make the beds not more than 4½ feet wide.

THE SIZE AND SHAPE OF YOUR ROSE BED

Beds 4½ feet wide accommodate three rows nicely, and require twelve Roses to every 6 feet. A bed 3 feet wide with two rows will require twelve Roses to every 9 feet; twenty-four Roses if 18 feet long, etc. The above estimate is based upon planting the Roses 18 inches apart each way. 18 inches to 2 feet is about the right spacing for most bedding Roses. In warm countries, where growth is most luxuriant, and for the big, bushy sorts, more room will be required.

Beds of any other shape or size may be laid out to suit one's fancy.

An avenue effect can be produced by planting Tree Roses (see page 11) on either side of a walk, about 5 to 10 feet apart, and in front and between them Everblooming Tea and Hybrid Tea Roses, with a solid row of Dwarf Polyanthas of the Baby Rambler type (see page 27) to form a bright edging along the front. These ever-blooming Baby-Ramblers are so hardy, they will live without protection, even in the coldest climates. The cost is not great and the effect produced by such an arrangement is really superb.

How to Grow Roses

"The love of Flowers is of those few earthly pleasures which age cannot wither."—DEAN HOLE.

A Pleasant Hobby. Growing Roses is not an expensive luxury, neither does it require a large amount of hard labor. A love and devotion that begets intelligent, diligent care when needed is the great requisite.

Having chosen the location for our Roses, let us make ready the bed. The simplest and easiest way is to spade the soil deeply and mix with it a good supply of well-decayed stable-manure. But to raise the best Roses it will pay to be more thorough.

Soil. If the soil is naturally well drained, it will be unnecessary to provide drainage. But nothing is more prejudicial to the health of Roses than poorly-drained soil, therefore, if needful, provide drainage. Dig a trench to the depth of 2½ feet, and in the bottom deposit a 4- or 5-inch layer of drainage material so that all surplus water will drain away quickly. It is a good idea to mix with the soil in the bottom of the trench a few broken bones, say a peck, for a bed holding a dozen Roses—they will furnish plant food for the Roses for three or four years to come.

The best soil for Roses is a compost of one-half broken sods or the soil directly underneath filled with fibrous grass roots, and one-half barnyard manure, all thoroughly decomposed.

HOW TO GROW ROSES, continued

Manures. While manure from the cow-stable is probably best, you can draw upon the horse-stable or pig-sty with equal expectation of good results, and "night soil" mixed with dry soil or sand and well composted is unsurpassed. Well-rotted leaves are fair, but too light except for heavy soils. Commercial fertilizers, such as bone or guano, may be used to advantage if handled with discretion. A rule to remember is never to let any "green" or "raw" manure come close to the roots of your Roses, but see that it is buried well beneath the root reach, or applied as a top-dressing.

The best time to apply manures is just as the ground begins to freeze in the autumn; let it serve as a protection over winter and dig it in next spring. It is said that Roses draw most upon the soil when blooming, and we find you can almost see the results from application (when the flower-buds begin swelling) of *liquid manure*, concocted by catching the drain from the manure pile, or one third of a bushel of manure soaked in a barrel of water and applied as a weak tea, not too strong, but frequently—say twice a week. When it is more convenient, a sprinkling of bone dust on the surface before a rain will answer the same purpose. Even with the best care, it may prove necessary at times, say after six or eight years, to renew the Roses or move the bed, adopting the farmer's principle of rotation of crops.

Time to Plant. The best time to plant Roses depends upon where you live. In the Southern and Pacific Coast States, autumn or early winter is most favorable. Leaving the Gulf states and coming North to the next tier of states, the same is true, providing you get dormant plants.

North of the line of the Ohio river, only our hardier varieties will withstand the winters, if set out in the fall. The Everblooming kinds—*i. e.*, the less hardy Teas and Hybrid Teas—before they can stand a winter in the open, require a summer's growth in which to become thoroughly established; and, therefore, through the largest area of our great country, as a general rule, spring planting is recommended.

If your ground for Roses has been prepared in the autumn, all the better; if not, begin as soon in the spring as the soil is dry enough to crumble in your hand. After this, dormant Roses may be planted at any time, but Roses in leaf not until mid-April, or any time thereafter.

Treatment on Arrival. When you receive the Roses, give them the greatest care; never expose the roots to the drying action of spring winds for a moment. A plant with bare roots exposed to the dry air is like a fish out of water. Should the plants, through delay in transit, come dried out, as occasionally happens, soak the balls of earth and roots in water; if the stems have dried out, after soaking the ball, bury the whole plant in damp earth for several days. This treatment may put them in good condition while, if they are planted when dried out, there is danger of their dying.

Planting. If plants have been started in pots and come with the earth on the roots, do not remove this earth, simply *crush* it and *loosen it slightly* so the outside roots get a chance to come in contact with the new soil. Should the plants arrive dormant, when ready to plant, unpack in a shaded place, protected from the wind. Keep the roots covered with damp burlap, moss or other material, until the actual moment of planting; spring winds are so drying that fatal damage may occur through a few moments of exposure. Do not set the plants too deep or too shallow. If planted too deep, the stems will rot off; if too shallow, the plants will grow spindling, will dry out too soon, and high winds will cause them to sway, breaking the roots. It is a good rule to plant them just a little deeper than they formerly grew, with upper roots 1 or 2 inches under ground. Make the hole in which the plant is to be set large enough so that the roots can be spread out naturally. Plants with cramped roots never do so well as those that have plenty of root-room when planted. Use plenty of water when planting, to work the soil among the roots. As the soil is being thrown in about the roots, pour in a pailful of water. When the hole is almost full, pour in another pailful, then set the next plant. In three or four hours, when the surplus water has drained away, finish filling the hole with soil and tramp the earth firmly about the plant. The after-cultivation consists of frequently stirring the surface soil to maintain a dust mulch.

Mulching. The main object being to retain the moisture rather than to enrich the soil, cultivate the garden once a week up to the middle of July, to maintain a dust mulch; after that, a liberal covering of "long" cow- or horse-stable manure that will not heat will accomplish this purpose best.

Winter Protection. Where the temperature gets below freezing, the less hardy Roses will require protection, and all of them will be the better for it, at least about the roots. Soon after the first frost (see calendar), having hilled up the soil around the stems, cover the Rose beds all over with a 3- or 4-inch layer of good heavy stable manure, and over this a 6- or 12-inch layer of leaves, held in place by the most sightly material available. A 12-inch fence of poultry wire will keep the leaves in bounds nicely. If leaves are not available, straw, corn-fodder and even boxes put over the Roses to shed the rains, will protect from the cold biting winds and the alternate freezing and thawing of early spring sunshine and cold nights; but do not smother the Roses, for if too tightly covered they will die. Remove the covering gradually in the spring when danger from frost is past.

THE ROSE-LOVER'S CALENDAR OF OPERATIONS, continued

JUNE

10th. Begin to enrich the Teas and Hybrid Teas with liquid manure. (You'll soon see the result.)

20th to 30th. Now the Teas, Hybrid Teas and Climbers begin blooming in abundance. Cut your blossoms freely. Look out for mildew and apply the remedy.

JULY

1st. Keep the soil well stirred.

4th. Gather all the flowers you can, it is not best for the plants to have them die on the bushes. You should now be reaping a full harvest from the Teas, Hybrid Teas, etc.

10th. From now till autumn keep a sharp lookout for signs of fungoid troubles—such as (1) Mildew, (2) Black Spot, or (3) Yellow Leaf, and apply Bordeaux mixture. If any aphids, use Rose nicotine.

20th. Now or earlier mulch your Roses with grass cuttings, old manure, or leaves. This will keep them blooming better.

AUGUST

30th. Teas and Hybrid Teas bring forth their "Fall Flower Show." As soon as the buds form, remember that Bon Arbor or manure water applied to the roots will help them to produce the blossoms you'll be proud of.

SEPTEMBER

10th. Some Hybrid Perpetuals bloom a second time.

OCTOBER

15th. Make ready your new beds for next year.

NOVEMBER

15th. After the first frost, begin covering the roots of your Roses with manure, and soon after this complete the protecting of the more tender kinds.

THANKSGIVING DAY

All should be safely nestled in their winter beds.

DECEMBER

Read Dean Hole's Book of the Rose. It is both interesting and instructive.

HOW TO PRUNE YOUR ROSES

Pruning is the art of improving the productive power, and the appearance of a plant. It consists of two distinct operations. 1. The removal of dead, weak, overcrowded, or otherwise useless shoots. Unripe wood which in the spring will usually be found to have discolored pith, caused by the winter frosts, should be cut clean away at the base of the shoot; *Pruning proper*, the shortening of those shoots which are allowed to remain after the thinning-out process has been completed.

The most frequent errors made in pruning are (1) leaving too many shoots when thinning out; (2) pruning severely the shoots of varieties which require little, if any, shortening; (3) pruning lightly the varieties which require severe pruning; (4) leaving Rose plants crowded with shoots and cutting these to a uniform length all over the plant in a similar way that a hedge is clipped.

In thinning out a shoot, it should be either cut clean away to the base of the plant, or to its starting point on the older shoot from which it springs, as the case may be. When the plant has been pruned the shoots should be left as nearly as possible equidistant from each other, and regularly arranged around it so that it presents a well-balanced appearance on all sides.—*National Rose Society's Handbook on Pruning*.

HYBRID PERPETUALS

See pages 38 to 41

The Hybrid Perpetuals should be pruned in March, if weather permits, by the middle of the month.

When pruning, first cut out the weak wood and any branches that cross, then cut back the strong canes to about six eyes, the top one pointing out, and the cut being made one-quarter inch above the bud. If you want only a few big flowers, cut back to only three or four buds. For the big outdoor display, leave four to seven canes two-thirds their growth.

These rules are modified somewhat by the character of the plant. The weaker-growing varieties can be cut back farther than strong-growing sorts. The strong-growing kinds, if cut back too heavily, will run to wood, and in the case of some—Gloire Lyonnaise, for instance—too heavy pruning may kill the plant.

Showing where to prune

TEAS AND HYBRID TEAS

See pages 16 to 24

The Teas and Hybrid Teas will need the same attention as the Hybrid Perpetuals, but there should be as much or more wood left. In case the winter may have killed the canes, cut back to live wood, even if down to the surface of the soil.

You will get lots of bloom from the new canes that will come up.

POLYANTHAS

See page 27

These, as a rule, are very hardy and no pruning is necessary except to thin out the thick growth and remove the last season's flower stems.

BOURBONS AND CHINAS

See page 26

Only moderate pruning is necessary. Simply remove any dead and useless wood.

MOSS ROSES

See page 36

These require moderately close pruning and should have an abundance of manure for successful cultivation.

RUGOSA ROSES

See page 35

These do not require pruning after the first season, except cutting away dead wood and keeping the plant shapely. Are also rich feeders.

HARDY CLIMBERS

See pages 28 to 34

These need to be cut back only about one-fifth, and on old, well-established plants the old, enfeebled wood should also be taken out. With this class it is well to bear in mind that it is on the wood made the previous season that the bloom stalks come for the next season's display, therefore, Hardy Climbers should be pruned and trimmed back (if they need trimming) after their blooming period is over and before they make new summer growth.

ROSE ENEMIES

Probably our worst enemy to American Roses is the **Rose Beetle**, which is particularly severe on sandy soils. For this, hand-picking into a vessel of kerosene is effective, or one pound of arsenate of lead in ten gallons of water sprayed on every two weeks through June and July is a preventive. This is also a good remedy for the **Rose slug**, which skeletonizes the leaves. He works from the under side of the foliage, so, when after him, turn the foliage and spray it thoroughly.

Aphides, or **green flies**, attack the plants during May and June, and if not dispatched they multiply rapidly, and suck the life-blood from the leaves. A vigorous spraying of Thompson's Rose nicotine will settle them. **Scale** seldom bothers any except old, neglected shrub Roses. Use scalecide or lime-and-sulphur wash.

Of the fungous diseases, **mildew** is by far the worst and most difficult to overcome. It will be recognized as a white mold, appearing on the foliage, which if not checked will spread.

This is most likely to occur in warm, damp weather, and certain varieties, such as Crimson Ramblers, are more subject to its attacks. Bordeaux Mixture applied at fortnightly intervals is a good preventive. As a cure, flowers of sulphur dusted on the foliage is recommended, also "Grape Dust." For **black spot**, **rust**, and other fungous diseases follow the same course.

INSECTICIDES

Thompson's Rose Nicotine is chemically pure nicotine and quick death to insects on Roses. No trouble, no odor, no staining; simply apply as directed with spray pump or plant sprinkler. Small can 30 cts., larger size 65 cts., postpaid.

Sulpho-Tobacco Soap. Another splendid insecticide. Directions for use on every package. 3-oz. cake makes 1½ gallons prepared solution, 10 cts. each; 8-oz. cake makes 4 gallons prepared solution, 25 cts., postpaid.

Hellebore, Powdered White. For the destruction of slugs, worms, caterpillars, etc. Less poisonous than Paris Green and London Purple, and safer to use. Use as a powder or dissolve one ounce in three gallons of water. ½ lb. box, 20 cts.; 1 lb. 25 cts. 5 lbs., \$1.00; 10 lbs., \$2.00; 25 lbs. and over at 18 cts. per lb., by express; postpaid, ½ lb. 25 cts., for other quantities add 10 cts. extra to express price for every pound, when wanted by mail.

Grape Dust. For mildew, mold or rust mites. 15 cts. lb., 5 lbs. 40 cts., by express only (not prepaid); postpaid, 20 cts. per ½ lb.

Bordeaux Mixture (Dry). For dusting plants affected with mildew, and all fungous diseases. Can be used as a spray. 1 lb. box, 25 cts. (makes 5 gallons liquid); 5 lbs., \$1.00, by express. If wanted by mail, add 15 cts. per lb. to above prices.

HOW TO SELECT THE RIGHT ROSES

FOR EVERY CLIMATE AND EVERY PURPOSE

"The success of the Rose in this country is very largely a question of the selection of adaptable varieties," says Prof. L. H. Bailey, Dean of Cornell Agricultural College.

Pemberton, in his excellent work on "Roses," says to *beginners*: "State your requirements to a friend who is an expert and leave the selection to him." But we have so grouped and classified the Roses in this book, describing their habits and requirements and telling what may be expected from them, that choosing is made easy—for who of us does not have a personal preference? To assist those who like a good assortment, we offer on pages 15, 25, 41 and 98, made-up sets, combining an assortment of colors and including Roses distinctly superior for the purposes mentioned.

As a Further Guide, We Make the Following Suggestions

For the latitude of Philadelphia, or any temperate zone where the thermometer usually does not get below zero.

All the Roses on pages 10 to 41, except climbers on page 30. Kinds on pages 11 to 29 will be the better for careful winter protection.

In this climate you might as well protect all your Roses while you are doing it. It will not hurt the hardiest, and even they will grow the better for it.

For Colder Climates, where the winters are long and severe and where it will pay you to protect ALL your Roses thoroughly.

All Roses on pages 31 to 41 inclusive (except a few on page 37), especially the Rugosas, Memorial and Moss Roses. Also the Hybrid Perpetuals and most of the miscellaneous Roses on pages 36 and 37. Only the hardiest of those offered on pages 11 to 29 including such kinds as Clothilde Soupert, Gruss an Teplitz, Baby Rambler, Mme. E. Marlet, Beauty of Rosemawr, Etoile de France, Kaiserin Augusta Victoria, and other Hybrid Teas. These named should have most careful protection.

For Warmer Climates, such as the South and Pacific slope states, where the winters are mild and frost is rare.

All the Roses on pages 11 to 41 inclusive, also page 98. (Note especially pages 25 and 30). The Roses on pages 31 to 41 will also thrive in the South, but are less desirable because their season of bloom is not so long.

For Porches, Posts, Archways, Arbors, Trellises, Summer-houses, and for beautifying Boundaries, Fences, etc.

Pages 31, 32, 33 and 34 are especially good for the North. Golden Rambler, Mrs. Robert Peary, Empress of China, Climbing Souv. de Wootton. These four and other kinds on pages 28 and 29 are excellent for this purpose when planted in a temperate climate.

For Cemeteries, Stone Walls, Banks and Rockeries.

Page 31, and also pages 33 and 34 (these thrive even in poor soil and with little care); after these any of the hardier Roses, especially the Hybrid Perpetuals.

Roses for Cutting or "Forcing" or indoor winter bloom. (Such as the professional florists use.)

Such kinds as Bride, Bridesmaid, Killarney, Richmond, American Beauty, Sunrise, Perle des Jardins, Kaiserin Augusta Victoria, Sunburst.

Rose Hedges.

Are certainly coming to be more and more popular as people learn about the splendid qualities of the Rugosa Roses (page 35) for this purpose. They are perfectly hardy, make neat, compact, uniform growth, and the thick, bushy mass of glossy, crinkled foliage gives a particularly fine appearance.

In warmer countries, or even in our own latitude, a single row of a free-flowering erect bushy Rose is very satisfactory. For this purpose the Polyanthas (page 27) are especially popular.

3 Grades of C. & J. Own-Root Roses

The different classes of Roses vary greatly in their habit of growth. We grade with especial care, as follows:

ONE-YEAR ROSES

These are vastly superior to the little Roses grown in "thumb-pots"—something we do not have on our place. Our one-year Roses are usually greenhouse-grown but well hardened with strong roots and bushy tops, from 6 inches to 12 inches high, according to the variety. This size, in the Teas, Hybrid Teas, Bourbon and China Roses (pages 12 to 27), under favorable conditions, will produce a surprising display of bloom which more than compensates for the outlay the first year.

TWO-YEAR ROSES

These are larger than the largest Roses put out by some firms. They are our regular two-year size. They are both field-grown and greenhouse-grown, with fibrous roots and well-branched tops from 1 to 2 feet high, depending upon the variety and habit of growth. With a few exceptions, they should bloom abundantly the first season.

★ STAR SIZE ROSES ★

In producing our Star Roses, special care is given to selecting the best kinds to grow and extra attention is given to see that the stock, when growing, is first-class in every respect. These roses therefore, when they reach our customers, are in prime condition for giving best results and the testimonials we receive show, that in offering these plants we are supplying Roses that give the utmost satisfaction.

The Roses in our catalogue marked with a ★ will help show the way to success in your Rose Garden. *The star will point out the varieties that are in every way reliable and desirable.* Furthermore, we can furnish the STAR kinds in extra-large, three-year-old stock; therefore both as regards the variety and its size

THE ★ KINDS ARE THE BEST

Gentlemen:—

Please send me a rose catalog for 1912. Last year I bought about fifty roses from you, mostly Star size, and they surely were all that you claimed for them. This year I will need some more and your kind are the kind I want.

Yours truly,

March 23, 1912.

STANDARD, or TREE ROSES

PLEASE ORDER BEFORE APRIL 1

Tree Roses occupy but little ground space and are very imposing when planted among shrubbery or perennials. Along the sides of a walk they form an avenue effect.

The plants we offer are exceptionally choice, with sturdy roots and well-balanced tops. For best results the weak shoots should be cut out in the spring before growth starts, and the stronger ones pruned back to three or four eyes each.

Standard or Tree Rose, 'Frau Karl Druschki'

NOVELTY ROSES

The above pictures will be of interest to Rose lovers as the one on the left represents the leading lady patronesses of the National Rose Society of France (including the Marquise de Sinety in the group), judging new Roses in the Bagatelle Rose gardens near Paris, where the leading Rose growers of Europe send their novelties to be grown in competition for the coveted Bagatelle prizes. The right hand picture shows another scene in these World-famous Gardens.

BRITISH QUEEN (H. T.)

This is indeed a Queen among roses and superb beyond description. Experts agree that this is the finest white H. T. in existence. It blooms all summer and the flowers are models of perfection. 1-yr. plants, ready May 1st, \$1.00, postpaid.

COUNTESS M. H. CHOTEK (H. C.)

A splendid hardy climber. Grows upright and bushy, and makes shoots 8 to 10 feet long in a season. Blooms are medium sized, well formed, very fragrant, bright crimson. (See illustration.) 1-yr. plants, ready May 1st, \$1.00, postpaid.

Countess M. H. Chotek

DAYBREAK (WICH.)

A vigorous grower and profuse bloomer. The flowers are single and produced in great pyramidal clusters of deep, yellowish-pink, shading lighter towards the center. 1-yr., 50 cts., postpaid; 2-yr., \$1.00, by express.

ERNA TESCHENDORFF (POLY.)

This is a sport from the world-famous crimson Baby Rambler. It has the same free flowering habit and dwarf growth with larger flowers than the parent and color a dark brilliant red. 1-yr. plants, ready May 1st, \$1.00, postpaid.

CLIMBING GRUSS AN TEPLITZ (C. H. T.)

Something great. A climbing form of the universally popular red rose shown in color on back cover. 1-yr. plants, ready March 1st, 75 cts., postpaid.

GEORGE DICKSON (H. T.)

One of the most perfectly formed roses ever seen and overflowing with perfume. The color is rich plum crimson, very rich and dark. A splendid outdoor rose for producing show blooms. 1-yr. plants, ready May 1st, \$1.00, ppd.

LESLIE HOLLAND (H. T.)

Color is deep, scarlet-crimson, of a delightfully brilliant and dazzling shade; very sweetly scented. A splendid rose that blooms almost unceasingly from June till frost. 1-yr. plants, ready May 1st, \$1.00, postpaid.

NOVELTY ROSES

LONGWOOD (H. C.)

Introduced by The Conard & Jones Co., 1913

This remarkable new hardy climbing rose is a cross between our famous American Pillar and No. 7 seedling. Flowers are medium in size, double, and produced in *immense* open clusters. The color is pure light pink, charmingly effective, and the flowers are exceptionally durable, remaining on the plant for weeks without fading. Foliage is thick and leathery, and remarkably free from mildew and disease. 1-yr. plants, \$1.00 each, postpaid. Large size from 5-inch pots, \$2.00 each, by express.

LOUISE LILIA (H. T.)

A choice dark, blood-red rose, remarkable for its exquisite, penetrating fragrance, which is unsurpassed. The blooms are well formed and very freely produced. Highly recommended. 1-yr. plants, ready May 1st, \$1.00, ppd.

MME. CHARLES LUTAUD (H. T.)

The blooms are large, full and well formed. Color is deep chrome-yellow, sometimes lightly, sometimes heavily, blended with rosy scarlet. It is really an improved Marquise de Sinety. 1-yr. plants, ready May 1st, \$1.00, postpaid.

Louise Lilia. INTENSELY fragrant

MME. EDMOND ROSTAND (H. T.)

A vigorous grower with deep green, bronzed foliage. It produces fine long buds, opening to very large flowers. Color is pale flesh, shaded salmon with reddish, orange-yellow center. The color is somewhat variable but always charming. 1-yr. plants, ready May 1st, \$1.00, postpaid.

MRS. M. H. WALSH (WICH.)

Flowers are double, pure snow white and freely produced. The large, glossy, almost evergreen foliage is very ornamental and valuable for covering banks. 1-yr. plants, ready May 1st, \$1.00, postpaid.

MAY MILLER (H. T.)

A strong growing, free flowering H. T., with large, dark foliage. The bud is long and pointed and opens into a flower of unusual beauty. The back of the petal is copper and bright pink, the upper surface peach and apricot shades. 1-yr. plants, ready May 1st, \$1.00, postpaid.

PRESIDENT VIGNET (H. T.)

A rose that is spoken of as "simply superb," its color and form giving it first place among red roses. The color is magnificent, being a deep carmine, shaded with bright poppy red. The flowers are large, full and globular and generally borne singly on long stems. 1-yr. plants, ready May 1st, \$1.00, postpaid. (See illustration.)

RELIANCE (H. T.)

A splendid addition to the bedding class. The flowers come on heavy canes, 3 to 4 feet long and are very large. Color is lovely glowing pink with creamy white base to the petals. The outer petals are extremely large and shell-shaped which gives to the half-open flower a great spread. The foliage is large, leathery and beautiful. 1-yr. plants, ready May 1st, \$1.00, postpaid.

TIP TOP (POLY.)

Growth is dwarf and the flowers are coppery rose shaded with yellow. A most attractive little rose which has gained favor wherever shown on account of the rich and attractive blending of the colors. 1-yr. plants, ready May 1st, \$1.00, postpaid.

President Vignet

FOUR EXTRA-CHOICE ROSES

Four Distinct Colors—Very Double, Fragrant and Hardy

★ MADAME CAROLINE TESTOUT

THE GREAT BEDDING ROSE (see cut)

In the great public gardens in England and on the European Continent, this Rose is extensively planted in beds of from twelve to one hundred plants, and in Portland, Oregon, and elsewhere, it is in great favor for mass planting along the streets. (See cut, foot of page 21.) It is a grand Rose, with large, full flowers and handsome buds which resemble the famous La France Rose, but the color is clear rich pink, finely edged with silvery rose. A strong grower, and abundant bloomer. One of the best for open ground planting. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

★ MAGNAFRANO

See Cut. Page 23

Flowers are extra large, very regular, full and deep and deliciously sweet; color, bright rich crimson scarlet, one of the best for garden planting. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

Dear Sirs:—I have one of your Magnafranans that started to bloom in May and for just five months it was *not once without plenty of flowers all the time*. My friends are just wild about them.

Very truly, Mrs. J. W. B., Webster Grove, Mo.

★ RADIANCE (NEW)

See Cut. Page 23

Color a brilliant rosy carmine displaying beautiful opaline-pink tints in the open flower. The form is fine; flower large and full with cupped petals. Splendid healthy foliage. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

SUNBURST (NEW)

A vigorous and healthy Rose, with long, pointed buds and splendid flowers, which are produced on strong, upright stems. The color is an intense orange-copper and golden yellow, extremely brilliant in effect. A splendid variety which does well both for forcing in the greenhouse and for garden planting. 1-yr., 35 cts., postpaid; 2-yr., 60 cts., by express.

C. & J. RELIABLE COLLECTION

Equipped with the benefit of a half a century's experience in intelligent Rose-growing, by our faithful attention to the wants of customers, we have won a confidence that we consider one of the most valuable assets of our business. Our appreciation of this confidence, therefore, makes us feel especially the responsibility of selecting from among 200 or 300 Teas, Hybrid Teas and Chinas, 12 Roses which we can recommend as the most reliable for general planting. There are so many beautiful Roses nowadays that it would not be just to say of any 12, "these are the best." But we do say that in this set of 12 each one contains the qualities of a high-grade Rose. They are all strong, vigorous growers, bloom abundantly, and all are among the hardiest in this everblooming class. Just enough in this collection to fill a bed 3 feet wide by 8 feet long. They will bloom the first season and every succeeding season, all summer long, even the one-year size; best about them, however, is the beauty of the flowers, in form, color, fragrance, every way; but read the descriptions, and note that most of these Roses are illustrated elsewhere. If planted in your garden you'll like them, we are sure.

12 SPLENDID EVERBLOOMING ROSES. \$1.25 Postpaid

★Gruss an Teplitz (See back color plate). Dark rich crimson passing to velvety fiery red—one of the very brightest colored Roses we know. Flowers large, full and sweet; blooms constantly the whole growing season. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

★Souv. de Pierre Notting. (See cut page 18.) Flowers are very large, perfectly full and double. Colors are distinct; rich orange-yellow, dashed and bordered with soft carmine-rose. Has received six Gold Medals and Grand Prizes. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★Blumenschmidt. (See cut page 18.) Flowers pure citron-yellow, outer petals edged with rose tint. Vigorous; good yellow Rose. 1-yr. 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★White Killarney. (See inside front cover.) In form, size and freedom of bloom this Rose is the same as the famous Pink Killarney, of which it is a sport, but it is more double than the parent and the flowers are pure waxy white. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

★Marquise de Querhoent. Persistent bloomer, bloom of good size, prime substance, full and sweet; color, beautiful china rose, salmon, copper and golden yellow. A combination rarely seen. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

★Etoile de France (Star of France). (See cut page 24.) Makes beautiful buds and extra-large fully double flowers, $3\frac{1}{2}$ to $4\frac{1}{2}$ inches across. Color, intense, brilliant crimson; very fragrant. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★Taft Rose. (See inside front cover.) We find it one of the most profusely blooming, brightest colored, sweetest scented pink Roses we have ever grown. Color is rich salmon-pink, shaded at the base with chrome-yellow. 1-yr., 30 cts., postpaid; 2-yr., 60 cts.; Star size, \$1.00, by express.

★Bessie Brown. (See cut page 22.) Bears large full flowers of extraordinary depth and fullness and is deliciously sweet; color, pure white, clouded and flushed with flesh pink. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

★Gen'l MacArthur. Color, bright glowing crimson-scarlet; a vigorous grower, every shoot producing a flower of intense brilliant color; very sweetly scented. Unexcelled as a splendid all-round garden Rose. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size 75 cts., by express.

★Mme. Melanie Soupert. (See cut page 24.) Large double flowers; fine salmon-yellow, suffused with carmine; freely borne on strong branching plants; quite hardy. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

★Bon Silene. Noted for the great size and beauty of its buds; bright, rich, rosy crimson; good for both open ground and house culture. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

★Kaiserin Augusta Victoria. (See cut page 22.) This grand Rose is still unsurpassed in beauty. Extra-large, finely formed flowers, borne singly on strong, upright stems; very deep, full and sweet; color, pure white, shading to lemon; a free bloomer. One of the finest Roses. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

FIRST PRIZE WITH C. & J. ROSES

In my rose garden the plants or bushes I purchased of your firm did wonders and I won first prize for my collection of Conard & Jones roses out of my garden at our Noble County Horticultural Society in June, and I hope to be able to produce better results next year from the roses I purchased of you last season.

Mrs. G. E. S.,
Wolf Lake, Ind.

C. & J. ROSES "A GRAND SUCCESS"

I have had excellent success with roses in the garden in summer. Those I purchased from you last year and year before were a grand success. My rose bed last year was about the best advertisement you could have in this town.

Mrs. G. L.,
Albin, Pa.

THE FOUR FAMOUS COCHET ROSES

No finer Roses than this set of "Cochets" are to be had, as they combine with their famous everblooming qualities practically all else that can be desired in a Rose.

They stand at the head of the list of everbloomers and no matter what other varieties you have, you need the Four Great Cochet Roses also.

★PINK MAMAN COCHET

This superb Rose is well known as a queen among Roses, one of the best and most beautiful varieties ever grown, and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick shell-like petals and makes superb long-pointed buds; immense bloomer, and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy ever-blooming Roses. Price, 1-yr., 15c., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

★WHITE MAMAN COCHET

A splendid Rose; has all the good qualities of Maman Cochet. Like some other white roses, this variety, especially in the autumn, shows pink markings on the outside petals when the flower is in bud. When open, the blooms are pure white and entrancingly lovely, large, fragrant, hardy and freely produced. Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

I want you to know that the White Maman Cochet lived through one winter outdoors and bloomed as true to the picture in your 1912 catalog as could be, a perfect beauty. Am trying another order with you as your roses heretofore have been the best and have come to me in the best shape.

Mrs. F. F.,
Monroe City, Missouri.

★RED MAMAN COCHET (Mrs. B. R. Cant)

Throws up great masses of splendid roses the whole growing season. A plant in our trial grounds produced over 70 perfect buds and blooms at one time, making the bush look like a beautiful bouquet. Flowers are extra large, perfectly double and deliciously sweet. Color, bright rose-red, elegantly shaded and exceedingly beautiful. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

★YELLOW MAMAN COCHET (Mlle. Helena Gambier)

A grand everblooming Rose; color, lovely canary-yellow, with deep peachy red center, changing to creamy pink as the flowers open. It makes a neat, handsome bush, and flowers are large, very double and sweet. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

EVERBLOOMING

TEA ROSES

ALL ARE DELICIOUSLY FRAGRANT

The Roses in this class are highly valued because of their fine colors and exquisite tea fragrance. They will bloom freely from June until November. If thoroughly established during the summer, they will, with few exceptions, prove hardy here, with protection. We wish to remind our friends of the superior quality of these plants; they are not the small slips so often sent out, which have been forced under a high temperature in little "thumb pots" into a quick, unhealthy growth, but these plants are the product of years of experience and our own improved method of culture, insuring the greatest possible vitality and abundance of bloom. See pages 18 and 19 for other colors.

Killarney (1-5 natural size)

★ KILLARNEY

The Lovely Irish Hybrid Tea Rose

Flowers are rich imperial pink on a very large bush; a vigorous grower, free bloomer and hardy. This splendid Irish Hybrid Tea Rose created a sensation when first introduced, and has certainly come to stay. It is a strong, vigorous grower and perfectly hardy, having stood out here during several winters without protection. There is no Rose we know of in this class that blooms more freely than Killarney and the large size of the flowers and substance of petals are remarkable, petals often measuring $2\frac{1}{2}$ inches deep. The buds are large, long and pointed, and to add to their charm, they are intensely fragrant. The color is exquisite, a brilliant imperial-pink, almost sparkling and beautiful beyond description. Price, 1-yr., 25 cts., postpaid; 2-yr. size, 50 cts.; Star size, 75 cts., by express.

I want to tell you that Killarney and Gruss an Teplitz Roses were a mass of buds and blossoms all Summer. The Killarney had 107 blossoms, and the Gruss an Teplitz had 92 buds and blossoms. It certainly pays one to purchase the Two-Year Old or Extra-Size Roses.

Yours very truly, M. H. T., Farmington, Maine.

C. & J. LA FRANCE SET

★La France. This is probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size, exceedingly sweet; color fine peach blossom, elegantly clouded with rosy flesh. Begins to bloom while very small, and continues bearing until stopped by freezing weather. 1-yr., 20 cts., postpaid; 2-yr. size, 40 cts.; Star size, 65 cts., by express.

White La France. A seedling of La France; extra large, full, deep pearly white flowers, delicately shaded with soft rose; exquisitely beautiful and delightfully fragrant. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

Red La France. This is a superb Rose, belonging to the Hybrid Tea class, and closely resembling La France, but much deeper in color and a better grower; the flowers are extra large, exceedingly beautiful, very double and full, and deliciously sweet; color, lovely rose-pink, very deep and exquisitely shaded; a constant bloomer. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

The Striped La France. An elegant new Rose, closely resembling La France in form and substance, but the flowers are distinctly striped with pearl-white and satin-rose. 1-yr., 15 cts., ppd.; 2-yr., 40 cts., by exp.

CHOICE EVERBLOOMING HYBRID TEA ROSES

This we believe is the most popular class of Roses now in cultivation. These varieties are the result of a union between the Everblooming Teas and the hardy Hybrid Perpetual class, thus combining the exquisite richness of coloring and beauty of form in the one with the hardiness, vigorous growth and pungent fragrance of the other.

It is rather exceptional in the Roses of any other class to find so many excellent qualities, and when you add the splendid feature of blooming so freely and continuously throughout the season, it is easier to understand why these Hybrid Tea Roses are so popular.

10 SELECTED ROSES FOR THE NORTH

This choice collection of Hardy Roses will live, thrive and bloom abundantly as far north as Alaska. They are hardy as oaks and winter protection is not necessary, though always beneficial.

Look carefully over this list and you will see it contains the finest Roses that can be obtained for Northern climates, where the winters are long and severe. They are all sturdy, vigorous bushes, full of vitality and most of them are deliciously fragrant.

- ★**FRAU KARL DRUSCHKI.** Pure snow white. Makes long buds and immense double flowers. (See cut, page 38.)
- ★**ALICE ALDRICH.** Clear bright pink flowers borne in quantities in June and at intervals during the summer and fall. Deliciously fragrant. (See p. 35.)
- ★**CHARLES WAGNER.** Clear bright red. Immense bloomer. (See page 39.)
- ★**OLIO.** Flesh color with rosy pink center. (See page 39.)
- ★**GENERAL JACQUEMINOT.** The premier hardy crimson rose. It is famous wherever Roses are known. Most beautiful. (See cut, page 39.)
- ★**GLOIRE LYONNAISE.** Pale lemon yellow. Almost thornless. The blooms are perfect and are freely produced. (See page 39.)
- ★**GLORY OF MOSSES.** Blush color. Large and full. (See page 36.)
- ★**RUGOSA MAGNIFICA.** One of the grandest roses for the North. Color is brilliant carmine and the flowers are intensely fragrant. (See page 35.)
- ★**SIR THOMAS LIPTON.** The best double white, free-blooming Rugosa. It is a most vigorous grower. (See cut, page 35.)
- ★**ULRICH BRUNNER.** Brilliant cherry-red. (See cut, page 41.)

FROM ONTARIO, CANADA

No. 22840.

I duly received shipment of roses and hanging plants and I wish to say that I am simply delighted with them, so fresh and green. I also wish to state that last year's shipment turned out entirely satisfactory, each plant proving fine specimens of roses.

Yours truly,

10 FINE SOUTHERN ROSES

While nearly all Roses thrive in the South, our patrons will recognize these as varieties which, in their kindly climate especially, can be counted upon for a glorious profusion of most beautiful Roses. These kinds with protection will winter safely in the latitude of New York and Indiana, and bloom bountifully.

- ★**KILLARNEY.** Flowers are rich imperial pink, produced on strong, sturdy stems. A most popular rose, and very free bloomer. (See cut, page 20.)
- ★**PINK MAMAN COCHET.** A rose that does especially well in the South. Color rich coral pink. (See cut, page 16.)

★**MRS. B. R. CANT.** Clear bright rose. Very double and sweet. An immense bloomer. (See cut, page 18.)

★**SAFRANO.** Yellow, changing to orange and fawn. (See cut, p. 18.)

★**RICHMOND.** Bright, glowing crimson-scarlet. Very beautiful.

★**WM. R. SMITH.** Creamy - pink with base of petals buff-yellow. (See back color plate.)

★**RADIANCE.** Color a rosy carmine with pink tints. (See cut, page 23.)

★**DUCHESS DE BRABANT.** Color is delicate clear pink.

★**MLLE. HELENA GAMBIER.** Canary yellow, peachy center.

★**OLIVA.** Deep rose color. Flowers double, buds nicely pointed.

Constant Blooming Bourbon and China Roses

BEAUTY OF ROSEMAWR

This is a class of Roses that no real Rose-lover can afford to miss; some of them are particularly famous for the large size, beauty and brilliant colors of blossoms. They bloom freely, flowering not only once, but all summer through. As a class they are moderately hardy, and if protected should live out over winter in this latitude. They like rich soil and should be pruned lightly. Cut all the blossoms you wish; such treatment is good for the plants and encourages more bloom.

AGRIPPINA. A beautiful Rose of brilliant fiery red; double and sweet. 1-yr., 10 cts., postpaid; 2-yr., 30 cts., by express.

ARCHDUKE CHARLES. Rich bright red; full and double, entirely hardy, excellent for open-ground planting. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

BEAUTY OF ROSEMAWR. Makes a strong, handsome bush, and blooms all the time; the flowers are large, delightfully fragrant, and perfectly double, with fine overlapping petals and raised center; color a lovely shade of rich carmine-rose, finely veined with creamy white. A splendid garden Rose. 1-yr., 25 cts., postpaid; 2-yr., 50 cts., by express.

★**BURBANK.** One of Luther Burbank's productions and an excellent Rose. Flowers 3 to 3½ inches across, very double and sweet; bright rose-pink, shading to silver-rose. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

CHAMPION OF THE WORLD (Mrs. DeGraw). The color is rich, rosy pink; the flowers are large, full and double and deliciously sweet and produce abundantly throughout the growing season. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

★**HERMOSA.** Well known as one of the best for general planting; blooms in clusters all season; clear, bright pink, very double and fragrant; quite hardy. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

QUEEN'S SCARLET. Rich velvety scarlet, very bright and handsome; strong upright grower; constant bloomer. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

SOUVENIR DE LA MALMAISON (Queen of Beauty and Fragrance). The color is lovely creamy flesh, with rose center, elegantly shaded. The flowers are large, perfectly double and deliciously sweet. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

VRIDIFLORA (The Green Rose). See page 37.

LUCULLUS (Red Pet). The "black Rose." Splendid rich crimson, full and double. 1-yr., 10 cts., postpaid; 2-yr., 30 cts., by express.

★**MME. EUGENE MARLITT.** See plate, inside front cover.

★**MADDALENA SCALARANDIS.** Color, dark rich rose on deep yellow ground, elegantly flamed scarlet and crimson. Has curious banana fragrance. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.

Gentlemen:

Several years ago I sent to you for some Roses, and one of them has grown six or more feet tall, and the rosy pink Roses are the envy of all who see them. It was called the Beauty of Rosemawr.

Respectfully, Mrs. C. C. R., Clarksburg, W. Va.

FOR PERMANENTLY EDGING WALKS OR FLOWER BEDS

In this class are different varieties of Polyanthas, such as the Baby Rambler types, the small-flowered or Standard Polyanthas and the large-flowering kinds, such as the famous, constant-blooming Clothilde Soupert, Marie Pavie and Snowstorm. All are suitable for bordering paths where a continuous show of bloom is desired, but for edging flower-beds the bright-blooming, dwarf-growing Baby Rambler types (shown in this column) are the most desirable. We grow them in quantity to meet the large demand there is for them—and will be glad to quote special prices by the dozen or hundred as desired.

Baby Rambler Types for Bright Edging 4 OF THE NEWEST. THEY BLOOM UNCEASINGLY

★**ORLEANS ROSE.** The best Polyantha Rose ever raised. Color, brilliant geranium-red, suffused with rose, center white, making a charming combination. Awarded a Gold Medal. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

GRUSS AN AACHEN. Valuable as a pot Rose. Flowers are yellowish pink, shaded red. Very free-flowering. 1-yr., 25 cts., postpaid; 2-yr., 50 cts., by express.

PHYLLIS. Beautiful cerise-pink. Flowers are borne in great clusters. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

MRS. TAFT. Color is rosy crimson. Habit is similar to Red Baby Rambler. 1-yr., 20 cts., postpaid; 2-yr., 45 cts., by express.

OFFER 127 The above four in 1-yr. size for 75 cts., postpaid. In 2-yr. size, the four for \$1.60, by express.

★**RED BABY RAMBLER.** (Madame Norbert Levvasseur). Grows 18 to 24 inches. The flowers are borne in clusters of 20, 30 or more, in every way resembling the blossoms of the Climbing Crimson Rambler. Always in bloom. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

★**PINK BABY RAMBLER** (Baby Dorothy, or Maman Levvasseur). Beautiful bright pink, blooms incessantly. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

HARDY EVERBLOOMING CLIMBING ROSES

These are the Roses that will add so much to the beauty of your home; especially for porch or trellis, or for covering an arbor or archway.

Your success and satisfaction will depend mainly upon two things: get kinds suited to the conditions of your place and climate, and then give them plenty of good, rich soil deeply mellowed.

There are two distinct classes of Climbing Roses:

1. The hardiest (including such as Philadelphia, Dorothy Perkins, etc., see pages 32 to 34), which burst forth into magnificent masses and clusters of bloom about the middle of spring, and continue beautiful for three to six weeks on into summer.

2. The other class are the Climbing Tea, Hybrid Tea or Everblooming Roses, most of them hardy in this latitude with protection. If favorably located they often bloom luxuriantly from May until November. See this and following two pages.

THREE ATTRACTIVE NOVELTIES

★**Mme. Jules Gravereaux.** An exceptionally fine variety. Long, pointed buds and *extra-large double flowers* of chamois-yellow with rosy peach center. Grows 7 to 10 feet high, and blooms freely until stopped by freezing weather. Undoubtedly one of the choicest roses in this excellent class. (See cut.) Price, 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★**Miss Messman** or **Climbing Baby Rambler.** A sport of the Crimson Baby Rambler, but vigorous in growth. It has retained all the good qualities of this excellent variety with the additional merit of being a climber. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

Gentlemen: Your roses received and I cannot resist the opportunity for a word of praise for your two-year rose plants. I say without hesitation, that they are the best-looking and the best-packed plants I ever received. I have no objection to you referring anyone to me as to the good quality of your flowers. Mr. J. P. Winston-Salem, N. C.

Climbing White Maman Cochet.

(See cut page 29.) Flowers are perfectly double and beautifully formed. The outside petals are tinted pink but the inside of the flower is a rich creamy white, soft and attractive. We highly recommend this rose. Price, 1-yr., 25 cts., postpaid; 2-yr., 50 cts., by express.

Four Everblooming Porch Roses

FOUR COLORS

★**Mrs. Robert Peary (White).** "**Climbing Kaiserin Augusta Victoria.**" One of the very best of this class; a strong vigorous grower, throwing up canes 6 to 8 feet high in a season. Flowers extra large and sweet; color, rich creamy white, delicately tinted with lemon. Blooms constantly the whole season. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★**Golden Rambler (Yellow).** "**Alister Stella Gray.**" This is a very beautiful variety. The color is rich apricot-yellow, soon changing to pure white, with bright yellow center. The flowers are large, full and fragrant, and it is a most constant and profuse bloomer; a bush on our own grounds, after blooming all *summer and fall*, had 75 to 100 buds and flowers on at middle of November. Plant near wall or trellis where it can have some shelter and support. Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 75 cts., by express.

★**Climbing Meteor (Red).** One of the finest bright crimson hardy Everblooming Climbing Roses ever introduced; makes exquisite buds and large, beautifully shaped flowers of the true Jacqueminot color. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★**Climbing Killarney (Pink).** A climbing type of the famous pink "Killarney" (see illustration on page 20). It is identical with the parent variety except that it is of the climbing habit of growth. Color is a most exquisite shade of rich imperial pink; deliciously fragrant. It is a strong, rapid grower. Price, 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

CLIMBING
CLOTILDE
SOUPERT

★**BIRDIE BLYE.** The beautiful, hardy, everblooming Pillar Rose. A fine, handsome bush, 3 to 6 feet high, with glossy foliage, and *blooms constantly from early June till freezing weather.* Color bright, satiny rose. 1-yr., 20 cts.; 2-yr., 40 cts.; Star size, 75 cts., by express.

CLIMBING CECILE BRUNNER. A rampant climber, but otherwise an exact counterpart of the popular Cecile Brunner; color, rich rosy pink on a creamy white ground. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

★**CLIMBING CLOTILDE SOUPERT.** (See cut.) Rich creamy white, sometimes tinted with blush. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 75 cts., by express.

★**EMPRESS OF CHINA.** Bears fragrant flowers of soft rich red, shading to cherry-pink; very pretty. Most satisfactory. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 75 cts., by express.

★**FLOWER OF FAIRFIELD.** A sport from the notable Crimson Rambler, which it resembles in every respect but the first blooms continue longer and it also blooms at intervals until frost. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

CLIMBING MME. ALFRED CARRIERE. Extra-large, full, flowers, very double and sweet; color, rich creamy white, faintly tinged with pale yellow. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

★**CLIMBING MME. CAROLINE TESTOUT.** Clear pink, finely edged with silvery rose. Blooms are very large and of globular form. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.

★**CLIMBING MOSELLA.** The flower is precisely like the buff-colored blossoms of the bush Rose by the same name. A very free bloomer. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

CLIMBING PAUL NEYRON (Mme. Wagram). Clear satiny rose, tinted crimson. 1-yr., 20 cts., postpaid; 2-yr., 40 cts., by express.

CLIMBING SOUV. OF WOOTTON. One of the most beautiful. Pure, rich velvety red fully equal to General Jacqueminot in color and equally large and beautiful. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

JAMES SPRUNT. Deep cherry-red flowers, rich and velvety; medium size, full, very double. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

MME. DRIOUT (Striped Reine Marie Henriette). The flowers are beautifully striped, flamed and shaded with deep carmine over pale rose. 1-yr., 20 cts., postpaid; 2-yr., 40 cts., by express.

PILLAR OF GOLD. A vigorous grower with large, double flowers borne in splendid sprays of five or ten on a branch; color, a rich deep yellow, flushed with a coppery gold and sometimes shades of pink. Deliciously fragrant. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

★**REINE MARIE HENRIETTE.** A magnificent bright cherry-red; extra large, full flowers very double and fragrant. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

EVER-
BLOOMING

CLIMBING ROSES FOR THE SOUTH

AND PACIFIC COAST

Our customers who live in the South and Pacific Coast States will find these Everblooming Climbing Roses especially suited to their climate. The abundance of bloom which they produce, warrants planting them freely. The side of your house or porch, pergola or Summer house well covered with such varieties as Gloire de Dijon, Marechal Niel or Wm. Allen Richardson roses is a sight that gives pleasure not only to the proud owner but to visiting friends, neighbors and passers by.

The Marechal Niel illustrated below shows how you can live amid the most luxurious surroundings at very small cost. Try the other varieties on this page too—they are all good bloomers.

★ **CLIMBING BRIDESMAID.** Same as Bridesmaid, except that the plant is a strong, vigorous climber. Clear rose-pink, with crimson shading, deliciously sweet. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

CLOTH OF GOLD (Chromatella). Clear, bright yellow, very full and double; beautifully formed buds and flowers; very fragrant. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

★ **CLIMBING DEVONIENSIS.** Do you know this lovely old favorite (also called Magnolia Rose)? Large, creamy white flowers with rich rose center. A good climber. Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 75 cts., by express.

GLOIRE DE DIJON. A famous old rose that everyone should have. Flowers are large, perfectly double, and *delightfully tea-scented*; color, rich creamy amber tinted with blush. (See cut.) Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

ISABELLA GRAY. Beautiful pale yellow, a very lovely Rose and a constant bloomer. Price, 1-yr., 20 cts., postpaid; 2-yr., 40 cts., by express.

LAMARQUE. Pale canary-yellow, almost white. A popular Southern Rose. It requires a warm, dry situation. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

★ **MARECHAL NIEL.** This variety is well known, and considered to be one of the most magnificent Roses in existence. Flowers are pure, deep yellow, and its fragrance is delicious. This is the most popular everblooming climbing rose in existence. It is not hardy in the North. (See illustration.) Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express. Northern customers should plant "Hardy Marechal Niel" (Gardenia), which we offer on page 31.

SOLFATERRE. Clear, deep sulphur-yellow, handsome buds and flowers; free bloomer, climbing habit. Price, 1-yr., 10 cts., postpaid; 2-yr., 35 cts., by express.

★ **WM. ALLEN RICHARDSON.** Large, full flowers of coppery yellow, tinged with carmine; has a delicious fragrance. It produces its flowers very freely and on account of its unique color is greatly admired. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

GLOIRE DE DIJON

MARECHAL NIEL

DEAR SIR:

The William Allen Richardson is a wonderful color. I have had dozens to call and see it. One tells the other what an odd Rose it is. I think it has about 100 Rose buds on it. It is two years old and this is the first time to bear. Its beauty is indescribable. Respectfully,

Mrs. J. K—, Chester, Penna.

Hardy Memorial, or Wichuraiana Roses

Sundial and archway beautified

WILL BLOOM LUXURIANTLY IN OUR COLDEST CLIMATE

They will climb when trained, or if left alone they creep along the ground as closely as an ivy and make a dense mat of shiny dark green foliage. The leaves are of leathery texture, practically insect proof, and remain green on the plants nearly all winter. They bloom in profusion during June and July, and the single ones bear red berries in the autumn. Entirely hardy, and when once planted take care of themselves. They are excellent for training over graves (hence called Memorial Roses) or over rough ground, rocks, stumps or banks.

| ★EVANGELINE (New). A vigorous cluster Rose with single flowers, 2 inches in diameter. Color, white with tips of petals pink; deliciously fragrant. | 15 | 40 | |
| ★HARDY MARECHAL NIEL (Gardenia). The finest hardy yellow climbing Rose yet produced. Deep rich golden yellow (almost the exact color of Marechal Niel), passing to creamy white; flowers borne in great profusion on strong, vigorous bushes as hardy as oaks. | 20 | 50 | |
| ★MANDA'S TRIUMPH. <i>Double White Memorial.</i> The flowers are medium-sized, perfectly double to the center, pure white and very fragrant. The plant is an erect grower; has handsome dark green foliage. | 15 | 40 | |

We are bound to say that we never have bought any roses with as fine roots as those you sent, and you may rest assured that we will tell about it whenever we find anybody in want of fine stock.
A. & D. Lumber Co., Union City, Tenn.

SHOWER OF GOLD. (New.) Vigorous grower with deep golden yellow and orange flowers borne in fine trusses. It produces a mass of bloom and the Wichuraiana foliage is beautiful in form, in color and in its high metallic luster. The leaves on the upper side are a vivid, glossy green, the under side reddish brown, shot with a silvery sheen and this brown color shows on the stems.

PHILADELPHIA RAMBLER

Considered
the most mag-
nificent hardy
Crimson Clim-
bing Rose in ex-
istence. Splen-
did for hedges.

The Famous Hardy Crimson Rambler ★“PHILADELPHIA”

Introduced by THE CONARD & JONES CO.

Splendid flowers, 2½ inches across and perfectly double; borne in grand clusters, completely covering the whole bush. Color, pure deep rich crimson, far brighter and more intense than the old “Crimson Rambler.” The “**Philadelphia**” holds its bright dazzling color a long while, which adds greatly to its value. Has handsome foliage, and is a most abundant bloomer. Undoubtedly the brightest of all hardy crimson climbing Roses yet produced; splendid for covering porches, trellises, screens, fences, etc. Is a strong, quick grower, perfectly hardy and needs no winter protection. Makes a great sensation wherever seen. People declare they never saw such immense quantities of Roses borne on one bush, or any flowers of such bright, dazzling crimson color. Frequently used in great quantities, because, either as a hedge, or on fences, it makes a magnificent show.

“**Philadelphia**” Rambler was awarded a “Certificate of Merit” at the great London Temple Flower Show, which is the finest of all the English horticultural exhibitions.

Price, 1-yr. size, 20 cts. postpaid; 2-yr. size, 40 cts.; star size, 75 cts.; extra large size, \$1 by express

FOUR FAMOUS RAMBLER ROSES

FOUR COLORS—PINK, RED, WHITE, YELLOW

★DOROTHY PERKINS

(Pink)

Grows 10 to 15 feet in a season. Flowers are perfectly double with petals wrinkled, and color a clear shell-pink, borne in immense clusters that cover the bush for several weeks in the spring. Blooms just in time for June weddings. (See cut.) Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 75 cts.; extra-large size, \$1.00, by express.

★EXCELSA (New)

The Red Dorothy Perkins

A distinct variety in form, color and habit. The color is an intense crimson-maroon, with tips of the petals tinged scarlet. Flowers are large and double, produced thirty to forty on a stem, and almost every eye on a shoot produces a cluster of bright blossoms. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., extra large size, \$1.00, by express.

IN MICHIGAN

Gentlemen:
. . . Dorothy Perkins produced during the past summer and fall more than a dozen large canes; three or four measured over 20 feet of entirely new growth, while the others grew from 6 to 12 feet. They are not "long drawn out," but good heavy canes.
Yours truly,
W. D. C.,
Big Rapids, Michigan.

IN PENNSYLVANIA

Dear Sirs:
Two years ago I sent for your set of 4 Ramblers, and last year they were fine; the Dorothy Perkins cannot be beaten. It must have grown 20 feet last season; bloom is perfect.
Mrs. S. K.,
Duncannon, Pa.

★WHITE DOROTHY (New)

A pure white sport of the well-known Dorothy Perkins, of same habit of growth and freedom of flowering; a splendid companion for the pink variety, as it flowers at the same time. A most valuable addition to this class. Awarded Gold Medal National Rose Society and Award of Merit, Temple Show, England. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts.; extra-large size, \$1.00, by express.

★ALBERIC BARBIER

(Yellow)

A very strong grower; leaves dark green, bronzy red in the spring and glossy; flowers in clusters, semi-double or double, creamy white with canary-yellow center. Flowers early. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts.; extra-large size, \$1.00, by express.

MERITORIOUS HARDY CLIMBERS

★**DR. W. VAN FLEET.** (New.) Exquisite, large, flesh-pink flowers, produced singly on long stems, excellent for cutting. Attractive, glossy, insect-proof foliage. 1-yr. size, 25 cts., ppd.; 2-yr., 50 cts.; Star size, \$1.00, by exp.

Gentlemen:—

The Rose, Dr. Van Fleet, is without question one of the finest that I or my friends have ever seen in that species. It is beyond my amateurish efforts to properly describe it.

H. T. S—, Williamsport, Pa.

★**CLIMBING AMERICAN BEAUTY.** (New.) This variety retains the deep pink to crimson color and the same delightful fragrance of the famous American Beauty bush rose. It blooms very freely and is noted for its fine foliage. (See cut.)

★**CHRISTINE WRIGHT.** (New.) Has the same habit of growth as Climbing American Beauty and the large, bright, clear pink flowers are produced in a perfect mass in June and occasionally during the summer...

It Will Bloom as Freely When Allowed to Climb

IRONCLAD RUGOSA ROSES

Rugosa Roses and their hybrids seem just suited for our North American climate as they are so tough and *hardy*. They make dense, sturdy, compact bushes, 4 to 6 feet high and very ornamental. Their dark, rich leathery foliage is oddly wrinkled, shiny and remarkably free from insect pests. Some bloom all summer, others but once, but are followed in the autumn with a profusion of beautiful orange-red or crimson fruits. The plants are hardy as oaks, and do well in the most trying places—seashore, mountains or anywhere. Excellent for making hedges or planting on the lawn with shrubbery.

★**ALICE ALDRICH.** We consider this a remarkably fine bush Rose for garden planting. It has lovely buds and its large, double flowers of clear, bright pink are borne at intervals during the whole growing season; very sweet and beautiful. It possesses all the excellent qualities of the Rugosa class. Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 75 cts., by exp.

★**CONRAD F. MEYER** (The New Tea Rugosa). Splendid, large, elegantly formed buds and flowers, $3\frac{1}{2}$ to 4 inches across and perfectly double. Color, rich peachy yellow, delicately tinged with silver-rose; very fragrant, entirely hardy. Price, 1-yr., 20 cts., ppd.; 2-yr., 50 cts.; Star size, 75 cts., by exp. (See cut.)

NOVA ZEMBLA (New). Very fine. The flowers are large and double. Pure white, with a pleasing flush of pink. A sport from Conrad F. Meyer. In 2-yr. size only, 50 cts., by express.

★**NEW CENTURY** (Double Pink). A magnificent new Rose, the result of a cross between the lovely everblooming Rose Clothilde Soupert and the hardy *Rosa rugosa alba*. The flowers are 3 to 4 inches across, perfectly full and double, and borne in elegant clusters. The color is clear flesh-pink with bright red center, and having all the petals widely bordered with fine creamy white; it is very sweet and has the delightful fragrance of the wild Rose or sweetbrier. Called the Ever-blooming "Ironclad" Rose. Price, 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

RUGOSA ALBA. Came from Japan. Single pure white flowers of five petals and highly scented, followed by pretty berries. Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

RUGOSA RUBRA. Another from Japan. Flowers a beautiful bright rosy crimson and single, succeeded by large berries of rich, rosy red. Exceedingly ornamental. Price, 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.

★**Rosa rugosa magnifica.** Introduced by The Conard and Jones Co.

The color is brilliant carmine which in the buds is very deep. The flowers are large, often 4 to 5 inches across and are noted for their intense, pungent fragrance which is so strong it scents the air around. A specimen plant, 5 years old, has bloomed unceasingly from late May until November. This plant was on a N. E. corner and shaded from the hot afternoon sun. "Magnifica" is a grand addition to this class. Price, 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, \$1.00, by express.

★**SIR THOMAS LIPTON** (White Century). This grand Rose requires no recommendation beyond the testimonials of those who have tried it. We consider it, without exception, the best double white Rose in its class; beautiful in foliage, early and constant in bloom, of most vigorous habit, ironclad constitution, producing a bush 5 or 6 feet high, and as great in diameter. The original bush on our grounds (ten years old) grew to be 20 feet in circumference, and was usually in bloom from the third week in May until November. (See cut.)

Price, 1-yr., 20 cts., ppd.; 2-yr., 50 cts.; Star size, 75 cts., by exp.

ROSERAIE DE L'HAY (New). Distinctly meritorious; produces an intense and exquisite perfume, because of which it is used to make the otto of Roses. Flowers bright red and very free-bloomer. Price, 1-yr., 25 cts., postpaid; 2-yr., 50 cts., by express.

SOUV. DE PIERRE LEPELDRIEUX. A fine, vigorous grower that bears double flowers in immense clusters; color brilliant vinous red. Deliciously sweet-scented and followed by bright red berries that remain on a long time. Price, 1-yr., 20c., ppd.; 2-yr., 75c., by exp.

TRUE ENGLISH SWEETBRIAR (*Rosa rubiginosa*)

This is the true Eglantine, and highly valued for the delightful fragrance of its young foliage as well as its pretty pink flowers. Entirely hardy and splendid for hedges. 1-yr., 20 cts., postpaid; 2-yr., 40 cts., by express.

Three Bright Yellow Hardy Roses

VERY HARDY. THEY CAN BE PLANTED IN THE MOST EXPOSED PLACES

Persian Yellow. (*Austrian Briar*.) This variety and Harrison's Yellow are the *showiest yellow* roses in cultivation. Persian Yellow flowers are a deep golden yellow color and the young leaves have the fragrance of the Sweetbriar. It blooms freely under ordinary treatment. In pruning, the head should be well thinned and the shoots that are left for flowering should be allowed to remain long. Established plants should be pruned very little. 2-yr., only, 50 cts., by express. (See cut.)

★**HARRISON'S YELLOW.** (*Austrian Briar*.) Bright, clear golden yellow; entirely hardy. Grows 3 to 4 feet high, and is fine for planting in group or with other hardy shrubs. Price, 2-yr., 50 cts.; Star size, 75 cts., by exp. (See cut, foot of page.)

SOLEIL D'OR. "Sun of Gold," Budded. The flowers are large and globular, perfectly full and double. The color is a mixture of reddish gold, orange-yellow, nasturtium-red and rosy pink, a combination difficult to describe. Has spicy orange fragrance. Price, 2-yr., 50 cts., by express.

A bush of Harrison's Yellow with its bright golden blossoms

★**Juliet** (*Budded*.) A distinct novelty which has been universally admired wherever exhibited. Color is old-gold on the outside of the petals, while the inside of the flower is rich rosy red, changing to deep rose as the flowers expand. It is large, full and deliciously fragrant and has received the unusual distinction of a First-Class Certificate, as well as an Award of Merit from the Royal Horticultural Society of England. 2-yr., size, 75 cts. each; Star size, \$1.00, by express.

★**Madame Plantier.** Specially recommended for cemetery planting. Pure white, enormous bloomer and extremely hardy. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

The Scotch Roses (*Rosa spinosissima*.) These Roses form small, compact bushes which need no pruning and are particularly useful where a low-growing thorny hedge is wanted. They are absolutely hardy and need no protection. The flowers have the simple charm of the single Rose, and quantities of them on the bush before opening look like little balls. We offer two colors.

Spinossissima Alba. Pure white. **Spinossissima Rubra.** Dark red. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts., by express.

INTERESTING ODDITIES—ROSES

"A Sensation of the Century"

★ THE BLUE ROSE (Veilchenblau)

A new Rose from Holland that originated from Crimson Rambler. It bears semi-double flowers of medium size, in large bunches. The originators describe the color as "reddish or rosy lilac when opening, changing to amethyst or metallic blue." We have bloomed it inside and outside and find it as described and a very distinct novelty. Thoroughly hardy and a vigorous, tall-growing climber. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

The Green Rose

THE GREEN ROSE (Viridiflora)

An Oddity—the Very Thing for St. Patrick's Day

The wonderful Green Rose; a valuable curiosity. Petals of the flowers are same color as the leaves—a deep pea-green—a free bloomer. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

★ LEONIE LAMESCH

(10 Colors)

A Most Remarkable and Pleasing Novelty

The blooms are medium size and very valuable and ten distinctly colored flowers are frequently shown on the bush at one time, varying from cochineal-red in the bud to glowing coppery red tinged with orange, when the flower opens. It is hardy as far north as Connecticut. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.

VICK'S CAPRICE

★ VICK'S CAPRICE. A fine striped Rose of remarkable beauty. The flowers are large and elegantly formed, quite full and double. Color deep clear pink, striped white. Price, 1-yr., 20 cts., p.p.d.; 2-yr., 45 cts.; Star size, 65 cts., by exp.

THREE CHOICE SOUTHERN ROSES

CHEROKEE. A strong growing, climbing rose, which produces immense quantities of flowers all over the bush. Flowers semi-double, and firm like pure white wax and show well against the deep green leaves. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

MACARTNEY. A southern favorite. The plants are evergreen, with dark shining foliage, and do best when trained against a south or east wall. Beautiful large single white flowers, with glistening golden stamens; an exquisite sort and very fragrant. Price, 1-yr., 25 cts., postpaid; 2-yr., 50 cts., by express.

MICROPHYLLA (Red). Vigorous, dense-growing bushes of semi-climbing habit; nearly evergreen. Double red flowers. Very satisfactory for cemetery work. Price, 1-yr., 20 cts., postpaid; 2-yr., 45 cts., by express.

THE BLUE ROSE

Plant Blue Rose in company with white or yellow flowers

IRISH ELEGANCE

We have here the most charming of all the large-flowered, single, Hybrid Tea roses. The beautiful long-shaped buds are particularly attractive, being a bronzy orange-scarlet, which assumes apricot hues as the flower opens. The blooms often measure 5 inches across and are produced continuously from early June till frost. 2-yr. size, (budded), 50 cts., by express.

THREE HARDY VARIEGATED ROSES

YORK AND LANCASTER. Flowers are marked red and white, sometimes blotched and sometimes striped. 1-yr., 50 cts., postpaid; 2-yr., \$1.00, by express.

ROGER LAMBELIN. Rich glowing crimson; petals edged with pure white. 1-yr., 25 cts., p.p.d.; 2-yr., 50 cts., by exp.

IRISH ELEGANCE

HARDY HYBRID PERPETUAL ROSES

The Hybrid Perpetuals are considered the most valuable of all Roses, because they bear the largest, sweetest, and most brilliantly colored flowers, and are so hardy and vigorous they live over winter with slight protection, and continue to bloom regularly from year to year. Their grand flowers are of all shades of red, crimson, scarlet, pink and white, but no yellows. They thrive and bloom finely in all sections of the country, and should generally be planted in the open ground, as but few varieties are suitable for house culture. Some kinds do not bloom till the second year, but when fully established bloom regularly at the usual time and occasionally during the summer and fall months. Though called "Perpetual," they are not constant bloomers, except a few as offered on page 41, but are the finest and most beautiful of all hardy Roses.

Pruning Hybrid Perpetuals

For Exhibition Purposes. All dead, weak and unripe shoots should be cut clean out and the center of the plant thinned to admit air and sunshine; the stronger and well-ripened shoots should be cut back to three or four eyes. In May, or as soon as the flower buds have been formed, it may be necessary to remove weak growths and also those that are not required, and so throw all the strength into the most promising growths.

For Garden Decoration follow the instructions for exhibition, except in pruning do not cut the shoots to less than four or six eyes, allowing more growth to remain.

We offer the choicest and most beautiful varieties in cultivation, and send strong, healthy plants.

★American Beauty. Color, deep pink to crimson, and intensely fragrant. This is a most beautiful Rose and a great favorite in some sections of the country where it thrives abundantly in the open ground. In the cut-flower realm it reigns supreme; think of blooms 4 inches across on stems 4 feet long, for so they grow under glass. Is it any wonder they command a price of \$5.00 per dozen and often more, and figure prominently in floral decorations of the most important public and social functions. There is a large demand for American Beauty and we supply fine, strong plants in 1-yr. size, at 25 cts. each, ppd.; 2-yr. size, 50 cts. each; Star size, 75 cts. each, by exp.

Last year and the one previous I bought some of your roses. This year I have reaped a bountiful harvest of blossoms. An American Beauty two years old had 45 blossoms. I am more than delighted; I am just crazy over them.

Mrs. B. S. E—, Washington, D. C.

★Anna de Diesbach (Glory of Paris). One of the old varieties, introduced 1858. Color is a beautiful shade of carmine-pink; flowers are extra-large, full and very sweet. A Rose that every one should have. Price, 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★Ball of Snow. Pure snow-white, sometimes faintly tinged with pale rose; flowers medium size, full and fragrant. Price, 1-yr., 15 cts., ppd.; 2-yr., 35 cts.; Star size, 60 cts., by exp.

FRAU KARL DRUSCHKI
OR
WHITE AMERICAN BEAUTY

★ FRAU KARL DRUSCHKI, or White American Beauty

THE BEST WHITE ROSE IN EXISTENCE

Gentlemen:

Frau Karl Druschki is now over two feet tall. My roses are the talk of the neighborhood.

Yours respectfully,
G. C. L.,
Washington, D. C.

This magnificent variety has taken first place at all the great flower shows of Europe. Pure snow-white, with long buds and immense, perfectly double flowers, 4 to 5 inches across, with wax-like petals and very durable. It is one of the most continuous flowering Roses in this excellent class. The bush is a vigorous grower of upright habit and luxuriant foliage. Hardy everywhere that Roses grow. Both for cutting and for garden decoration, "White American Beauty is universally admitted to be the finest white Rose in cultivation." *The Garden—England.* We offer extra-fine plants. Price, 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, \$1, by express, or \$5 for 6.

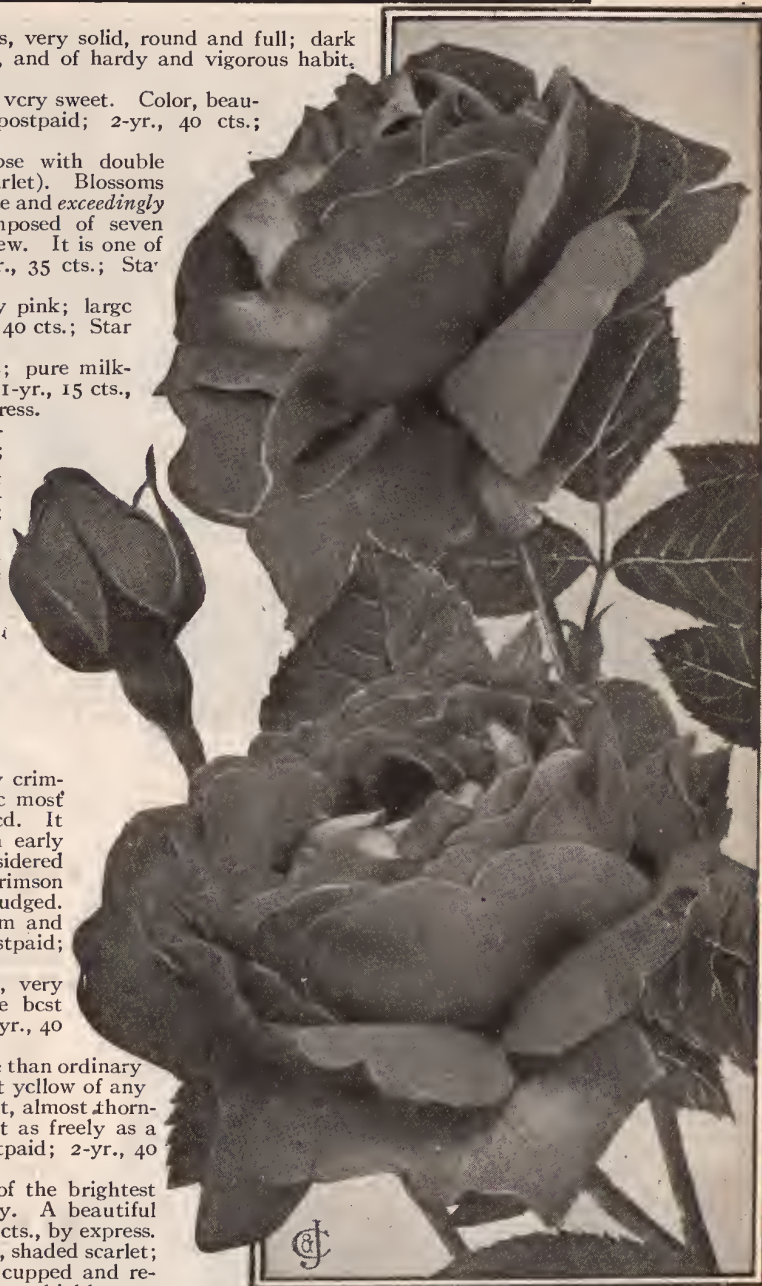

Gentlemen:

... My Frau Karl Druschki is beautiful to a point beyond description, and has been admired by many neighbors and strangers this spring.

W. G. S.,
Haddonfield, N. J.

HARDY HYBRID PERPETUAL ROSES, continued

- BARON DE BONSTETTEN.** Extra large flowers, very solid, round and full; dark rich crimson, delightfully scented; free bloomer, and of hardy and vigorous habit. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.
- ★ **CAPT. HAYWARD.** A Rose of perfect form and very sweet. Color, beautiful bright crimson-carmine. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 60 cts., by express.
- ★ **CHARLES WAGNER.** A vigorous growing Rose with double flowers of clear bright red (approaching scarlet). Blossoms appear in clusters of three to five, of great substance and *exceedingly fragrant*. It has luxuriant foliage, usually composed of seven leaflets, of dark rich green and not liable to mildew. It is one of the *best bloomers*. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.
- ★ **OLIO.** Flesh color shaded in the center with rosy pink; large and of fine form. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.
- ★ **COQUETTE DES ALPES.** Elegant large flowers; pure milk-white, faintly tinged with rose; Great bloomer. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.
- ★ **COQUETTE DES BLANCHES.** Pure snowy-white, sometimes faintly tinged with pale rose; blooms in large clusters, medium size, full and slightly fragrant; blooms the first year and all through the season. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.
- ★ **EUGENE FURST.** Strong, vigorous grower, with thick, healthy foliage. Flower a beautiful shade of velvety crimson, shading to maroon. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.
- ★ **FRANCOIS LEVET.** An unusually strong and vigorous grower and very free bloomer; large, round, stately flowers. Color, bright rosy crimson; very fragrant and exceedingly beautiful. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.
- ★ **GENERAL JACQUEMINOT.** The premier hardy crimson Rose. Famous the world over as one of the most magnificent Hardy Crimson Roses ever introduced. It is a strong, vigorous grower, entirely hardy, an early and profuse bloomer. Buds and flowers are considered models of perfection, and its brilliant, shining crimson color is the standard by which other Roses are judged. In fact, it is almost unequalled in beauty of form and brilliant intensity of color. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.
- GIANT OF BATTLES.** Brilliant crimson; large, very double and sweet; constant bloomer; one of the best and in great demand. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.
- ★ **GLOIRE LYONNAISE (Budded).** A variety of more than ordinary merit. Color is pale lemon, and it is the nearest yellow of any Hybrid Perpetual. The bush is strong and upright, almost thornless and the splendid blooms are produced almost as freely as a Hybrid Tea. A grand Rose. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.
- GLOIRE DE MARGOTTIN.** Dazzling red, one of the brightest colored Roses in cultivation; splendid every way. A beautiful garden variety. 1-yr., 15 cts., postpaid; 2-yr., 35 cts., by express.
- ★ **HUGH DICKSON.** New. Color, brilliant crimson, shaded scarlet; good size and fine form; petals smooth, slightly cupped and reflexed; free-flowering and vigorous in growth; very highly perfumed. Awarded Gold Medal, National Rose Society of England. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, \$1.00, by express.
- ★ **J. B. CLARK.** Intense deep scarlet, heavily shaded blackish crimson; growth upright, foliage bronzy green in the young stage.

General Jacqueminot

Flowers are large and beautifully formed. Awarded Gold Medal, National Rose Society of England. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

Dear Sirs:—

The J. B. Clark rose which I bought from you several years ago is a most magnificent rose. It is now covered with large buds.

Very truly,

HARDY HYBRID PERPETUAL ROSES, continued

Have you read Dean Hole's "Book About Roses"? It has become almost a classic, and we think it the most entertaining one of them all. See page 5.

JOHN HOPPER. An excellent Rose; hardy and an abundant bloomer; solid and regular flowers, perfectly double; clear bright rosy pink, very fragrant. One of the first to open. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

JOHN KEYNES. Rich, dark cherry-red, delightfully sweet and handsome. An exceptionally free bloomer which will supply you with quantities of lovely Roses for inside decoration. 1-yr., 15 cts., postpaid; 2-yr., 40 cts., by express.

★JUBILEE. The form of this flower is perfect and the blooms are large. Color is very attractive, being a bright flashing red, shading to velvety crimson of a deep rich shade, which gets darker as the flower ages. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★LA REINE (The Queen). Beautiful clear rosy pink; large, full fine form; very fragrant. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 60 cts., by express.

★MME. CHARLES WOOD. Color, very bright, rich cherry-red; blooms the first season and all the time, and is delightfully fragrant. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★MME. MASSON. This variety belongs to the free blooming Hybrid perpetual class. Its blooms come in great quantity in June, and flowers at intervals all through summer and fall. Color is a pleasing shade of bright, rich crimson, and the bush is a robust, sturdy grower. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★MME PLANTIER. See page 36.

No. 19177.

5-3-12.

I have received by my order No. 15621 from you, the plants arrived in their usual fine condition. My rose bed consisting of about eighty-five bushes which I have purchased from you during the past season came through the hard winter with the loss of one bush, which I consider a fine showing.

D. M. M—
Hasbrouck Heights, N. J.

★MAGNA CHARTA. Extra large, full flowers of unusual depth and substance; bright rosy pink; very grand profuse bloomer; one of the hardiest and best blooming perpetual Roses. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

MARCHIONESS OF LORNE. Bright shining rose; full, finely cupped flowers, produced abundantly all through the season; delightfully fragrant. 1-yr., 20 cts., postpaid; 2-yr., 45 cts., by express.

★MARSHALL P. WILDER. Extra large, full flowers; dark, deep red; very strong grower and free bloomer; very handsome. 1-yr., 15 cts., ppd.; 2-yr., 40 cts.; Star size, 65 cts., by exp.

★MRS. JOHN LAING. Soft pink of beautiful form; exceedingly fragrant and remarkably free-flowering. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

★PAUL NEYRON. The largest Rose. This reliable and well-known H. P. Rose, sometimes called "The Peony Rose," still leads all others of its color and class. Color, clear pink. It is the largest Rose in cultivation, single blooms often measuring 5 to 6 inches across. One of our customers in Alaska writes: "The Paul Neyron Rose bought from you has now flowers 6 inches across." So you see,

that added to its other qualities it is entirely hardy, as it does well even in Alaska; also very fragrant, has fine, erect habit, is a strong grower; beautiful, large, smooth, glossy foliage. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★PRINCE CAMILLE DE ROHAN. Very dark, velvety crimson, almost black; considered to be the best, very dark rose ever produced. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

ROGER LAMBELIN. See page 37.

★ULRICH BRUNNER (See cut, page 41). This is by a great many considered the finest red Rose in existence. Color, brilliant cherry-red. This variety is a seedling of Paul Neyron, from which it derives its immense size. It has fine form, is intensely fragrant, and the flowers have great lasting qualities, which make it valuable for cutting. The branches are almost thornless and the foliage is very strong and healthy. 1-yr., 15 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.

★VICK'S CAPRICE. See page 37.

Gentlemen:—

4-29-12.

My first Roses were purchased from the Conard & Jones Co. and I take pleasure in testifying to the uniform courtesy and fair dealing of your firm. Much of my success in Rose growing is due to the knowledge gained from a study of your publications.

With all good wishes, I am, Very truly yours,

THE LEADING BOOKS ON ROSES AND ROSE-GROWING

HOW TO GROW ROSES. A handy little book, 4 3/4 x 8 1/2 inches. Convenient for travel, to study in your library, or in the garden where it is most needed. A customer says, "it is the most interesting and cleverly written, comprehensive little book I ever had in my hands." Beautifully illustrated. Price 10 cts., or free (on request) with \$1.00 order.

We have secured the General Agency in America for
"THE GENUS ROSA" By Ellen Willmott, F. L. S.
 Published in 24 Parts

This book will give an account, with 127 illustrations in color, by Alfred Parsons, A. R. A., of the most interesting species of the Roses in the Old and New Worlds. Some natural hybrids, a few first crosses and several old garden Roses have been included, in order to complete the treatment of the subject. Professor Sargent, of the Arnold Arboretum, Harvard University, read the entire manuscript, which owes much to his criticisms and advice. 127 colored plates, etc. Price, \$5.00 per section.

ROSES. By The Rev. Joseph H. Pemberton, (President of the National Rose Society of England). We consider this the finest book on Rose-growing for the amateur. 336 pages. Illustrated. Price, \$3.50, postpaid.

ROSES, AND HOW TO GROW THEM. Written by a group of experts. 189 pages brimful of instructions about growing Roses in the garden, also careful details about glass houses and how to grow Roses successfully in them. Chapters on pruning, spraying, Roses for special purposes, etc. Price, \$1.10, postpaid.

A BOOK ABOUT ROSES. By Dean Hole. This is one of the most delightfully written books about Roses ever published. The author loves Roses and you can feel this when reading of his failures and successes. He tells practically everything you will want to know about Roses for your garden. 300 pages. 24th edition. Price, \$1.50, ppd.

THE ROSE. By H. B. Ellwanger. Full directions for propagating, pruning, etc. 310 pages. Price, \$1.25, postpaid.

"YOU HAVE THE FINEST CANNAS IN THE WORLD"

The above is the comment made upon a visit here by the late Mr. Geo. H. Brown, Landscape Gardener, U. S. Public Buildings and Grounds, Washington, D. C.

To have doubled, and more, the size of a flower;

To have trebled the variety of colors;

To have increased the endurance of the bloom;

To have given bronze foliage to flowers that before had only green,

is, after eighteen years of faithful, enthusiastic hybridizing, the record of our Vice-President, Antoine Wintzer, America's Canna Wizard.

To have won for these improved flowers leading awards at the great expositions in America;

To have won for America the majority of the awards against all competing nations of Europe in a two-year international competitive test by the Royal Horticultural Society of England;

To have the superiority of C. & J. Cannas recognized and to have them used by the leading parks of our country;

I CONGRATULATE YOU"

To have the superiority of C. & J. Cannas recognized and to have them used by the Department of Agriculture;

To have the superiority of C. & J. Cannas recognized and to have them used by the United States Government for beautifying extensively the nation's Capitol, and,

To have the superiority of C. & J. Cannas recognized and to have them offered by our fellow florists in their catalogs,

above is evidence conclusive that C. & J. Improved Cannas are superior.

C. & J. 1913

BLANCHE WINTZER (3½ ft.)

One step nearer the perfect white canna; whiter and larger than Mont Blanc, which for ten years has been the best. Mr. Wintzer looks upon "Blanche Wintzer" as one of his greatest triumphs, so exquisitely white and pure are its glistening petals. A rather dwarf grower, with green foliage, fine for bordering beds, for individual specimens, and for indoor bloom. Florists' Exchange, September 28, 1912, says, "this is the finest white canna, undoubtedly, the world has ever seen." Strong plants, \$5.00 each, prepaid.

LOVELINESS (3 ft.)

The color of this exquisite Canna is most difficult to describe, but we think that "bright ruby carmine" will convey to our customers the entrancing loveliness of this most charming variety. The blooms are formed on large heads which are borne erect, and the individual flowers, with firm, well made petals, are of the new "Gladiflora" type, introduced by us and illustrated on page 45. The foliage is delicate green which harmonizes perfectly with the beautiful flowers. The plant is very robust and will produce quantities of flowers in a season. Strong plants \$2.00 each, prepaid.

NOVELTIES

JENNIE WALLS FAHNLIN (4½ ft.)

This glorious combination of pink and primrose arouses enthusiasm always on account of its dainty coloring and unique markings. The lips of the petals are flashing carmine pink, which shades towards a throat of soft primrose, delicately dappled pink. Each petal is faintly edged with gold. Effect is dainty, artistic and fascinating. Strong plants, \$2.00 each, prepaid.

PANAMA (3 ft.)

The color of this splendid canna is unusual, being an attractive rich orange red with a well-defined edge of bright golden yellow. The flowers are very large, the petals being almost round and as broad as they are long. Strong plants, \$2.00 each, prepaid.

MAID OF ORLEANS (4½ ft.)

Ground color is rich cream over which is shaded and mottled in beautiful fashion an attractive pink. The flowers are very large, and the foliage is probably the richest of any of the green leaved kinds, being a soft olive green with the edges tastefully crimped and distinctly marked with bronze. Strong plants, \$2.00 each, prepaid.

C. & J. Improved Cannas

NOW USED IN THE FOREMOST AMERICAN GARDENS AS

"King of Bedding Plants"

C. & J. SWASTIKA INDICATES THE VARIETIES ORIGINATED BY THE CONARD & JONES CO.

Produce, from June till frost, a mass of brilliant bloom in all imaginable colors and combinations (except blue), in sizes varying from 2½ to 8 and 10 feet high; green or bronze foliage (luxuriant and tropical in effect), with flowers often 7 inches across.

HOW TO PLANT AND GROW

C. & J. Pedigree Cannas

Up until May 1, we send out our Cannas in Dormant Roots, except the new kinds which we offer only in potted plants. After May 1, we aim to have all kinds ready in potted plants. Price, 5 cts. each more than Dormant Roots. Dormant Canna Roots may be started indoors during March or April, but should not be set out until weather is settled and the ground warm, usually May or June in this latitude. When planting Dormant Roots do not set too deep. The eye should show a little through the ground when done. Plant in good, rich garden soil mixed with one-half of old, rotted stable manure. Set them about 18 inches apart each way. Water sparingly the first two weeks after planting; when growing freely, water liberally.

5 Mrs. Alfred F. Conard—Queen of Cannas

5 Olympic—Note immense spread of petals

5 Gladioflora—The Gladiolus flowered Canna

5 MRS. ALFRED F. CONARD, 4 ft.

This has become the most popular pink canna ever introduced and it is unsurpassed for planting either singly or in large beds (see illustration at foot of page 46). Its exquisite salmon pink flowers are of largest size in erect and abundantly furnished heads so freely produced as to keep a superb showing for months. 50 cts. each, postpaid.

From the Executive Officer, White Plains, (N. Y.) Village Park Association, Inc.

"*** Last spring I sent you \$1.00 for a plant of Mrs. Alfred F. Conard Canna. I want now to say that it more than makes good your description. Its many branched flower spikes and over and beyond all, the exquisite soft color, combined with the firm and durable petals, make it a prince among Cannas. I have received many times my money's worth during the last six weeks."

CHAS. H. TIBBITS, Executive Officer, W. P. V. P. A.

5 OLYMPIC. 5 ft. The color effect presented by "Olympic" is new in Cannas and most fascinating. It is a distinctly new departure, being a most captivating shade of rich orient-red with center flamed a lighter shade and dappled carmine. Individual blossoms are of the largest size, and the huge twenty-flowered clusters make heads that are *simply immense*. (See cut). \$1.00 each, postpaid.

5 GLADIOFLORA. 3½ ft. Remarkable for the unusual shape of the flowers, which look like large *gladioli*. Petals are rounded and so wide they overlap each other. Color is crimson, changing to carmine-rose, edged with gold. The bright, firm, well formed blooms show up attractively above the neat green foliage. 25 cts. each, postpaid. (See cut).

5 METEOR (Wintzers). 5 ft. We've a 10 ft. bed of Meteor on our office grounds. The most solid mass of deep dazzling crimson bloom produced is spectacular. For thirteen weeks have we watched and marvelled as each morning fresh flowers renewed the brilliant scene. On green foliage, undoubtedly *our best red*, and one that will always be in the front rank when a bright, brilliant crimson color is desired. 35 cts. each, postpaid.

5 ROSEA GIGANTEA. 3½ ft. The giant-sized flowers are wonderful. It is a prodigious bloomer with great flower heads of soft rose to carmine-pink, darker than Mrs. Alfred F. Conard Canna and by some preferred. It has recently received the highest award accorded any Canna. (The Award of Merit from the Horticultural Society of England). 30 cts. each, postpaid.

5 WILLIAM SAUNDERS. 4 ft. A rival and superior to "King Humbert" in that it continues all season a blaze of bloom when "King Humbert" is "off show." The individual flowers, often 5 inches across, are bright scarlet and they harmonize perfectly with the beautiful *bronze foliage*.

It is a strong, vigorous grower and self cleaning, which means flowers fresh every morning from June 'till frost. 25 cts. each, postpaid.

5 SPLENDOR. 4½ ft. The most impressive quality in this Canna is the firm, well-spread-out formation of the flowers, which are an intense scarlet color and very large. It makes 2 or 3 bloom heads on each stalk, insuring flowers practically all the time, as new blooms are constantly appearing before the older flowers fade. \$1.00 each, postpaid.

5 KATE F. DEEMER. 4 ft. The grand flowers open a rich, oriole-yellow which gradually gives place to turkey-red in the center and throat of the flower, in striking contrast with the rest of the blossom which turns almost white. The rich yellow buds on reddish brown stems, combined with the yellow and white flowers make a fascinating combination. 50 cts. each postpaid.

5 WABASH. 4 ft. The Bronze-leaved "Rosea Gigantea." Flower is unusually large, petals broad and borne in great abundance well above the magnificent foliage.

Well described as "Bronze-leaved Rosea Gigantea," for this flower has the same great size and carmine-pink color as that famous novelty, adding the advantage of handsome bronze foliage. 50 cts. each, postpaid.

5 CONOWINGO. 5 ft. The color of this flower is, like "Splendor," an intense fiery scarlet, but slightly deeper. Its great attraction, however, and difference from "Splendor," is in the foliage, which is an unusually beautiful plum color at the base, shading to rich olive-green at the tip. The stately flowers are freely produced, and are very rich and beautiful. 50 cts. each, postpaid.

GIANT ORCHID-FLOWERING LILY CANNAS

These Cannas are in a class by themselves, because of their wonderful size, and the rare and beautiful formation of their flowers, suggestive of the beauty of the tropical orchids. With their height of 6 to 7 feet, they tower above the average Canna, and the luxuriant foliage is as large as elephants' ears. A single blossom of "Louisiana" often measures more than 7 inches across. Under a very hot sun the fine silken petals of the average orchid-flowering Cannas sometimes show a tendency to wilt, but we feel that we have largely overcome this in our latest introductions, which have still the exquisitely formed flowers, and, at the same time, petals of such excellent substance that the hot sun does not affect them.

FOUR OF THE LATEST AND BEST

5 Mrs. Carl Kelsey. 6 to 7 ft. Foliage green with a narrow edge of purple, and with erect, full heads of enormous flowers, each one wider than this page. Orange-scarlet, flaked and striped with golden yellow; petals wavy edged. We know of no other Canna so marvelously marked—an ornament to any garden. (See illustration.) 25 cts., postpaid.

5 New York. The foliage alone reaches up to 5 feet high, the leaves are large and broad and stand quite erect, thus showing their deep, rich, purple-plum color on both sides. Has five or six stalks of flowers at once on every well-fed plant, with five petals 5 to 6 or 7 inches across. Color almost scarlet, and all above the foliage. 25 cts., postpaid.

Uncle Sam. Received an award of merit from the Royal Horticultural Society of England, and a bed of it was planted on the grounds of the White House, Washington, D. C. It is very stately in appearance and bears enormous bunches of brilliant orange-scarlet flowers. Height, 6 to 7 feet. 20 cts., postpaid.

Giant-Flowering Purple-Foliaged Canna, Wyoming

One of the most majestic Cannas. Blossoms orange-colored, true orchid-shape, with large, rounded petals that flap and flutter in the breeze like glistening silken flags. Height 7 feet. 15 cts., postpaid.

FROM AN EXPERT WHO KNOWS CANNAS

2176
Gentlemen: I have grown your new Cannas for many years at Austin, Texas, and the "Louisiana" is the most successful so far as tried.

Yours truly,
H. B. BECK
University of Texas, Austin, Tex.

Gentlemen:

The Louisiana Canna Lily I got from you last spring was the most beautiful Canna I ever saw. It had three bloom stalks nine feet high and was just loaded all summer and autumn with flowers. MRS. J. L., Anabel, Mo.

NOTE.—When our friends try "Mrs. Carl Kelsey" Canna, they will find it equal, if not superior, to "Louisiana."

Offer No. 48 Above 4 in Dormant Roots, 75c., postpaid; or after May 1 in plants for 90c., postpaid.

STANDARD VARIETIES

Allemania. 5 ft. A splendid variety. The outer petals are bright scarlet with a broad yellow border, the inside colors being scarlet and dark red, beautifully mottled and variegated. 15 cts., postpaid.

Austria. 5 ft. Flowers 6 to 7 inches across; pure golden yellow; a vigorous grower. 15 cts., postpaid.

Burbank. 4½ ft. A giant in size with nearest approach to semi-double flowers; beautiful, rich canary-yellow, the throat finely spotted crimson. 15 cts., postpaid.

Indiana. 6 ft. Glistening golden orange, daintily marked and striped with red. Single blossoms often 7 inches across. 15 cts., postpaid.

Italia. 4 ft. Center brilliant red, petals widely bordered with clear yellow; striking and handsome. 15 cts. each, postpaid.

5 Grand Prize Canna,

Louisiana.

7 ft. At the Louisiana Purchase Exposition, St. Louis, 1904, where all the finest Cannas were on exhibition, "Louisiana" was pronounced the finest orchid-flowering kind then in existence. The words of commendation we receive and the magnificent showing of bloom which this great plant makes on our trial-grounds convince us that "Louisiana" will continue to hold its lead for some years yet. The plant is a vigorous grower, producing a thick mass of glossy green foliage; its flowers are often more than 7 inches across, and every inch a vivid scarlet. It blooms tremendously, often four or five stalks flowering at once. 15 cts., postpaid.

Mrs. Kate Gray. 5 ft. Flowers 6 inches across; orange-scarlet, finely flaked and streaked with golden yellow tints. 15 cts., postpaid.

Pennsylvania. 6 ft. The flowers are pure, deep scarlet, of immense size. A most excellent sort. 15 cts., postpaid.

Offer No. 48a One each above 8, in Dormant Roots, 90c., postpaid. After May 1, plants for \$1.20, postpaid.

Prices named are for dormant roots. Potted plants ready May 1st. Price, 5c. each extra.

How to Plant Circular Beds

Get the tallest-growing varieties in the center, and then carefully grade each succeeding circle, using dwarf kinds for the outside. Plant one Canna in center of bed, next six Cannas 18 inches apart in a circular row 18 inches from center. For each succeeding circle use six more Cannas than were used in the previous circle and make it 18 inches farther away from the center. A 7-foot bed thus planted will contain 1 Canna in center, 6 in first circle, 12 in outside circle, all 18 inches apart and the bed when planted will have the last row 6 inches from the edge to allow proper growth or room for a border of edging plants. For edging we offer Salvias, at \$6.00 per 100; Coleus (except Dr. Ross), and Achyranthus, at \$4.00 per 100, by Exp.

USEFUL ORNAMENTAL HEDGES

Beautiful Hedges add much to the appearance of a property, and are, everywhere, coming into more general use. They look better than fences, last longer and cost less; when once established, they require only a little cultivation and pruning each year to keep them the desired shape and size. A fence is more trouble, a hedge grows better looking every year. These plants are also used for individual lawn specimens. See between the trees in the illustration.

5 Cents a
"running foot"

Seems like a low price for a fence, and yet we can furnish you Privet plants for a good hedge like this at that rate, or less, and it will be an ornament for years.

Note the individual plants trimmed cone-shaped to the right of the walk.

CALIFORNIA PRIVET (*Ligustrum ovalifolium*)

Most Popular Hedge Plant

A remarkably vigorous grower, compact and regular in form with glossy wax-like foliage; a beautiful shade of green. It is by many recognized as the **Ideal Hedge Plant**, thrives in all kinds of soils and situations, in sun or shade, around railroads or smoky factories, and for seashore planting it is one of the best things you can get. It is quite hardy, having withstood a temperature of 20 degrees below zero, and is also extensively planted in hot, dry, southern soils. Is never troubled by insects and will withstand shearing to any extent, and at all seasons. Plant 6 to 9 inches apart. Our plants are thrifty, vigorous and well rooted. Price, 10 cts. each, 3 for 25 cts.; 50 for \$2.50, delivered. For prices of larger quantities, see below:

JAPAN BARBERRY (*Berberis Thunbergii*)

Valuable for making a **low, dwarf hedge**. Requires very little pruning. It has fine thorns and small, round, rich green leaves that change color in the autumn to a fiery crimson. The hedge is made still more beautiful by great numbers of pretty drooping yellow flowers which are followed by bright red berries. It is frequently planted singly, and is one of the handsomest flowering shrubs we have. Plant about 12 inches apart. Prices, 15 cts. each, \$1.25 per doz., postpaid; 2-yr. size, 25 cts. each, \$2 per doz.; 3-yr. size, 40 cts. each, \$2.50 per doz., by express. ROSE HEDGES

are certainly coming to be more and more popular as people learn about the splendid qualities of the Rugosa Roses for this purpose. They make neat, compact, uniform growth, and the thick, bushy mass of glossy, crinkled foliage gives a particularly fine appearance. Plant 18 inches apart.

An excellent Rose Hedge is made by training Climbing Roses on a wire fence. Plant them about 4 or 5 feet apart.

BEAUTIFUL, HARDY CLIMBING VINES

Flower-lovers and gardeners know how indispensable are Vines and Climbers for beautifying one's place, especially near the house. Plant Clematis, Climbing Roses and Honeysuckles about the front porches, with perhaps a vine or two of the Chinese Wistaria to climb as high as the roof. Stone or brick walls are always prettier when ivy-clad. Then going around to the rear of the house, if you have a trellis to cover, or want a screen for certain buildings, get more Honeysuckles, and if you need something to cover a large space quickly, try the Kudzu vine; the Trumpet Creeper also is good. On the next three pages are the best climbers for arbors, arches, trellises, porches, etc. Remember how pretty an arbor can be. American Ivy or even Grape-vines make a good covering.

HARDY ENGLISH, or LARGE-FLOWERED CLEMATIS

The Large-flowered or Hardy English Clematises are considered the most beautiful of all our flowering vines. The flowers are large, often measuring 4 to 6 inches across, and are borne in great wreaths and clusters during July and August. The colors range from rich, royal purple to pearly white. The vines are of slender, wiry growth, and require some support that they can twine around, like a rod, pole or wire, and if the location is somewhat moist and partially shaded, so much the better; the north side of the house or porch is often the best place for them. Hardy.

JACKMANII. A rare and beautiful hardy climbing vine of slender, twining growth, and bearing great wreaths and clusters of splendid purple flowers. 5 to 6 inches in diameter.

RAMONA. A strong, hardy grower and very free and almost perpetual bloomer; flowers very large and borne in great profusion, deep sky-blue and very handsome.

MME. EDOUARD ANDRE (New Red.)

A splendid new sort and the nearest approach to a red Clematis yet introduced; the flowers are 4 and 5 inches across and a deep rose-pink; very beautiful.

HENRYII. Elegant, large flowers, rich creamy white; enormous bloomer; very fine. (See illustration).

Sweet-scented Japan Clematis

SWEET-SCENTED HONEYSUCKLES

We recommend these beautiful Honeysuckles as among the finest hardy climbing vines we have for covering porches, trellises, arbors, screens, fences, etc. They are strong, vigorous growers, not troubled with insects or disease, and, having plenty of foliage, are very desirable for shade and shelter; several varieties are almost evergreen and retain their foliage nearly all winter; most of them are deliciously fragrant and continue blooming the whole season.

Ever-Blooming Honeysuckle, Heckrottii. Considered the finest yet produced. Color is crimson-carmine on the outside of the flower, which contrasts beautifully with the golden apricot of the inside as the flower opens. It is a very vigorous grower and blooms unceasingly all season. (See illustration.)

The Beautiful Halliana Honeysuckle. This variety is intensely sweet-scented. It is a strong, clean, neat grower, perfectly hardy, almost evergreen, with leaves that shine as if varnished; constant and most profuse bloomer; flowers buff-yellow, passing to white. Splendid for porches and all similar places.

Evergreen Sweet-Scented Honeysuckle. A hardy, vigorous grower; blooms nearly the whole season; deliciously sweet; flowers buff, yellow and white; very desirable for porches.

Golden-Leaved Honeysuckle. Slender, moderate grower; leaves beautifully veined and netted with clear yellow, so that the prevailing color of the foliage is bright yellow; flowers yellow and sweet-scented; fine for pillars and trellises.

Red-Coral Honeysuckle. A hardy, rapid grower, suitable for rockwork, walls, etc. Flowers coral-red, very pretty.

For Annual Climbers, Moonflowers, etc., see page 57

EUONYMUS (TWO VARIETIES)

A hardy, dense-growing evergreen vine, climbing by aerial roots, often reaching 15 or 20 feet high. Bears pretty fruits; makes good growth if planted in rich soil, and perhaps more satisfactory in a shady situation. Excellent for covering walls, rocks, or trunks of old trees.

Radicans. Small, rich green leaves.

Radicans variegata. Green leaves variegated with silvery white.

Price: Either variety, 15c. each, 12 for \$1.50, postpaid; stronger and larger plants, 30c. each, 12 for \$3, by express.

Euonymus radicans variegata

For Beautifying Banks, Archways and Pergolas

In addition to the vines and climbers on these four pages, we wish also to call attention to the Climbing Roses on pages 31 to 34, which are unsurpassed for training over trellises, arbors and archways, as well as on banks, and for covering pergolas. These Roses make excellent hedges when trained over wire fences. (See page 53.)

Wistarias will climb to your roof if desired

MAGNIFICENT WISTARIAS

The Wistarias are valuable for training over buildings, second-floor porches, balconies, etc., wherever tall-growing climbers are wanted. They are hardy, rapid growers, and the flowers are borne in long, pendulous clusters, as shown in the illustration; they bloom early in the season and are always greatly admired.

Double Purple Wistaria. This is a magnificent new variety, the finest of all the Wistarias; immense clusters of perfectly double flowers; rich royal purple and delightfully sweet, very showy and handsome. Price, 1-yr. plants, 25 cts. each, postpaid; 2-yr. plants, 50 cts.; 3-yr. plants, \$1, by express.

Wistaria magnifica. The most vigorous of all the Wistarias. A well-started plant will often grow 30 or 40 feet in a season. It blooms rather later than the others, in beautiful clusters of soft lavender-blue. Price, 15 cts. and 25 cts. each, postpaid; 2-yr. plants, 40 cts. each; 3-yr. plants, 60 cts. each, by express.

Wistaria Sinensis alba. Pure white flowers, borne in long, drooping clusters; one of the most beautiful of all. Price, nice mailing plants, 20 cts. each, 3 for 50 cts., postpaid; 2-yr. plants, 50 cts. each; 3-yr. plants, 75 cts. each, by express.

Wistaria, Chinese Blue. Bears splendid, long, drooping clusters of lovely violet-purple flowers, deliciously sweet. Price, 15 cts. and 20 cts., each, postpaid; 2-yr. plants, 35 cts. each; 3-yr. plants, 50 cts. each, by express.

HARDY PERENNIAL PLANTS

OR OLD-FASHIONED GARDEN FLOWERS

One of the chief delights that comes from owning a garden is in having flowers enough to give one's friends, as well as for house and table decoration. The beauty, variety and lasting qualities of Hardy Perennials make them especially useful as cut-flowers. They are also equally valuable for adding brightness and color to the border beds, and a comparatively small collection will enable you to have some flowers in bloom all summer through.

Hardy Ferns in a shady place will prove a constant delight

NEW LARGE- FLOWERING

JAPAN IRIS

*Iris Kaempferi
grandiflora*

The grandest of all hardy Iris. The flowers are of enormous size, averaging from 8 to 10 inches across, and of most gorgeous and exquisite colors, including different shades of white, crimson, rose, violet, yellow and blue, each flower usually showing several shades and a large blotch of golden yellow surrounded by a dazzling halo of blue or white in the center. They bloom during June and July, 12 to 18 inches high, and are indescribably beautiful. They are perfectly hardy and grow and flourish in any good ordinary soil; they especially delight in a rich, deep, moist location, and for best display should be abundantly supplied with manure and water. They bloom regularly every year without attention, except that the roots should be divided and reset about every three years, when it will also repay you to renew the soil.

Beautiful Bedding Pansies

SPLENDID DOUBLE HERBACEOUS PEONIES

"ARISTOCRATS OF THE FLOWERS"

Peonies today show a wonderful improvement over former years. There is something of true magnificence about this aristocrat of the flowers, and in large mass-plantings they produce an effect that you remember—great, gorgeous blossoms, daintily dyed with the most exquisite shades, from white to the deepest reds. They are deliciously fragrant and for effective decorations, especially on a large scale, are totally unsurpassed. Bloom several weeks in the spring. Height, 2 to 3 feet.

CULTURE.—They will grow anywhere, reasonably speaking—though they do best in rich, deep soil and a sunny position, but thrive well in partial shade. Plenty of water during the growing season is an added stimulus. They are perfectly hardy, require no protection and are not troubled with insects or disease.

SIX FINEST PEONIES

Couronne d'Or. Beautiful white, with a blotch of red in the center around which is a halo of yellow. Immense, very full, ball-shaped bloom. Price, 50 cts. each, postpaid.

Felix Crousse. This is one of the leading red Peonies. It is an exceptionally striking kind with large, double, ball-shaped blooms, and is extra-fine in every way. Price, 50 cts., each, postpaid.

Festiva maxima. For over fifty years this has been the standard for perfection in Peonies. The immense, perfectly double flowers are pure snow-white with a beautiful flake of carmine in the center. No collection of Peonies is complete without this beauty. Price, 50 cts. each, postpaid. (See illustration.)

Francois Ortegat. One of the richest colored Peonies. Brilliant crimson, full, double flower. Price, 50 cts. each, postpaid.

Gigantea. Immense blooms 6 inches to 7 inches across, on long stems; color a most exquisite shade of bright pink, tipped with silvery white; indescribably beautiful and deliciously fragrant. The finest of all pink Peonies for cut-flowers. Price, \$1.00 each, postpaid.

La Tulipe. Very fragrant. A very large, globular flower, flesh-pink shading to ivory-white with a few of the center petals tipped crimson. Price, 50 cts. each, postpaid.

HARDY PERENNIAL PHLOX

The improved varieties of Hardy Perennial Phlox, which we offer below, are among the handsomest and most useful of our hardy herbaceous plants. The flowers are very large, and borne in grand massive heads of most brilliant colors. The plants are perfectly hardy, and when established will bloom on year after year, with little or no attention. There are few plants that with so little care will make such a handsome display of brilliantly colored flowers every season. To obtain best results, the soil for them should be deeply dug and have incorporated into it some well-decayed manure. They will be better if given water during a dry spell and a mulch of manure for the winter.

Fragrant Hardy Garden Pinks for edging

SWEET VIOLETS

Violets are great favorites and always in demand. They do well in open ground and if given a sheltered place will usually begin to bloom before the snow is gone, and continue bearing their lovely flowers for several months. Vast quantities are grown for market, and find a ready sale at good prices. The double varieties are not so vigorous in growth as the singles. It is advisable, therefore, to plant some of each, as the single varieties can spare enough leaves for bunching the double kinds when they are being grown for market. In this way the foliage of the double kinds is left to support the plant, which is a great advantage.

The demand for Violets is steadily increasing in this country, and we offer here the best yet introduced.

Governor Herrick. A splendid new single Violet. The flowers are rich, dark purple and are carried erect on long, strong stems. For freedom of bloom this new variety outclasses all others. Very fragrant. 20 cts. each, \$2 per doz., postpaid.

Lady Hume Campbell. The flowers are very large, perfectly double, like little roses, lovely azure-blue, and delightfully fragrant. They push up through the crown and stand above the leaves on straight, strong stems. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

Princess of Wales. Claimed to be the finest Violet yet introduced. The flowers are single and very large; they are borne in great profusion on stems 10 to 12 inches long all through the season. The color is true violet-blue, and the fragrance rich and delicious. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

Admiral Avellan, the "Red" Violet, so called. The color is a deep shade of rich violet crimson, quite distinct from any other kind and very attractive. Flowers are large and deliciously fragrant. 25 cts. each, postpaid.

Swanley White. The finest and best white Violet in cultivation; profuse bloomer, perfectly double and exquisitely fragrant; a true perpetual bloomer. 10 cts. each, 6 for 50 cts., \$1 per doz., postpaid.

Hardy Double English Violet. This violet is entirely hardy, perfectly double, and most deliciously fragrant. Color, a deep violet-purple. 15 cts. each, 3 for 40 cts., \$1.50 per doz., postpaid.

OFFER No. 63. The above set of 6 Violets, 75c., or 2 of each, 12 in all, for \$1, postpaid.

Spiraea (Palmata) Japonica

Red-Hot Poker (*Tritoma Pfitzeri*), Flaming Torch Plant.

Throws up strong stems 2 to 3 feet high, bearing large clusters of brilliant orange-scarlet flowers in elegant pompons, 6 to 8 inches long and 2 to 3 inches across, as shown in our illustration, until the ground is hard frozen. It is unsurpassed for cutting, and will keep for weeks in water. Price, strong roots, 20 cts. each, 6 for \$1, postpaid.

Mammoth Sage. One plant will yield more than a dozen of the common sort. The leaves are large and of most excellent quality. The plant is a strong, compact grower, 3 feet in diameter; it rarely flowers, and never runs to seed. It is perfectly hardy in the coldest climate. Price, 15 cts. each, 6 for 50 cts., 15 for \$1, postpaid.

Spiraea (Palmata) Japonica. Goat's Beard, or Meadow Sweet. From Japan. Grows 1 to 2 feet. Thrives if half-shaded. Quite hardy. Flowers in white masses in June. Price, 15 cts. each, postpaid. (See illustration.)

Veronica spicata. Speedwell. An elegant border plant, about 1½ feet high, producing long spikes of bright blue flowers, which bloom from spring till frost. Price, 15 cts., each, postpaid.

Japanese Fern Ball

ORNAMENTAL FERNS

ROOSEVELT FERN—NEW, 1911. The grandest Fern of its class yet introduced. It resembles the world-famous Boston Fern, but produces twice as many wide, drooping fronds, and the pinnae are beautifully undulated, giving a pronounced wavy effect seen in no other variety. It has sprung into wonderful popularity, and when better known will be wanted by every one. 25 cts. each, 3 for 70 cts., postpaid. Larger sizes 50 cts., 75 cts., and \$1.00, by express. (See illustration.)

Amerpohli. (The Philadelphia Lace Fern.) Belongs to the ostrich-plume type; each broad, graceful frond seems like a piece of delicate lace. 25 cts. and 40 cts. each, postpaid; larger sizes 50 cts. and \$1 each, by express.

Whitmanii. (See illustration.) Fronds wide, graceful, dense and feathery. 20 cts. and 35 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1, by express.

Elegantissima. The New Plumed Fern. Both sides of the fronds are equally beautiful. Plant is a compact grower and one we highly recommend. 15 cts. and 25 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1, by express.

Boston Fern. Fronds grow 2 to 3 feet long and droop over in the most delightful way. 15 cts. and 25 cts. each, postpaid; larger sizes, 40 cts., 75 cts. and \$1, by express.

Newport Fern (Scotti). Resembles the Boston Fern, but grows more erect, has shorter, narrower fronds and makes three times as many of them. 15 cts. and 25 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1, by express.

Scholzeli. The crested Dwarf Scotti Fern. The plant has a fluffy, crested appearance much like the Ostrich-Plume Ferns. 20 cts. each, postpaid; larger sizes, 50 cts. and 75 cts. each, by express.

ORNAMENTAL PALMS AND DECORATIVE PLANTS

Kentia Belmoreana Palm

The lovely Phoenix Palm

Araucaria excelsa

Kentia Belmoreana. This Palm is not affected by the dust and dry air of the house, and will grow and thrive where few other plants would live. Plants, 6 to 8 inches high, 25 cts. each; larger size, 35 cts. each, postpaid; extra-size, 50 cts. each, by express. (See illustration.)

Phoenix Roebelini. One of the finest of all decorative plants. It resembles the beautiful *Cocos Weddelliana* in graceful foliage, but is much more vigorous in growth, and its gracefully recurving leaves, with very narrow, dark green pinnae, give it a lightness and airiness not surpassed by any other variety. Price, 35 cts., each, postpaid; larger size, 75 cts. each, by express. (See illustration.)

Offer No. 65. 1 Kentia, 25-cent size, and 1 Phoenix, 35-cent size, the 2 for 50c., postpaid.

Latania Borbonica. **The Fan Palm.** Thrives in any ordinary living-room, in spite of heat, dust or drought. Has elegant, fan-shaped leaves, rich dark green, beautifully fringed. Grows easily, needs no petting or coaxing. Price, fine plants, 6 to 10 inches high, 25 cts. each; 10 to 15 inches high, 35 cts. each, postpaid; 15 to 18 inches high, 50 cts. each, by express. (See illustration.)

Umbrella Plant (*Cyperus alternifolius*). Can easily be grown in a bowl or dish half-filled with rich soil, then filled with water. Price, 15 cts. and 20 cts. each, postpaid; larger sizes, 35 cts. and 50 cts. each, by express.

The New Crested Holly Fern (see page 64)

Cocos Weddelliana. This is one of the most graceful of all the smaller Palms. Its slender, erect stem is freely furnished with graceful, arching fronds and fine, deep green leaves. It is especially suitable for fern dishes as the plants are of slow growth and maintain their beauty for a long time. Nice plants 6 to 8 inches high, 3 fronds, 30 cts. each, postpaid; larger sizes, 50 cts. and 75 cts. each, by express.

Ostrich-Feather Palm (*Areca lutescens*). Foliage is rich, glossy green, with bright yellow stems, full of grace and beauty; easily grown. Price, strong plants, 6 to 8 inches high, 25 cts. each; 10 to 12 inches, 35 cts., postpaid; larger plants, 50 cts. and 75 cts. each, by express.

Araucaria excelsa. **Baby Christmas Tree.** This is one of the handsomest and most beautiful of all the decorative evergreens for house culture. It grows nicely in parlor or living-room, requires very little care, not subject to insects, stands hard usage well, is exceedingly beautiful, and has a distinguished appearance entirely different from anything else. Price, fine sturdy little trees, 8 to 10 inches high, two to three tiers of branches, from 4-inch pots, 75 cts., each, postpaid. Larger and heavier trees, \$1 and \$1.50 each, by express. (See illustration.)

The Rubber Tree (*Ficus elastica*). One of the very finest ornamental plants. Price, fine sturdy plants, 65 cts. each, postpaid; larger sizes, 50 cts., 75 cts. and \$1.00 each, by express.

Sansevieria Zeylanica. The leaves grow erect, 1 to 2 feet high, and are beautifully cross-barred with pure white and deep green. Price, 15 cts. and 20 cts. each, postpaid; extra size, 35 cts. each, by express.

OFFER 65a. 1 each of the 5 Palms on this page for \$1.25, postpaid; same in largest size, the 5 for \$2.75, by express.

SPLENDID NEW DAHLIAS

FIELD-GROWN ROOTS, POSTPAID

The majority of people are just finding out the possibilities of the Dahlia for inside decorative purposes as well as for garden planting. Within the past few years the demand for this flower has increased steadily and growers find it hard to fill orders. The varieties we offer here are, according to our judgment, the choicest selection to be had in this country, and comprise an excellent assortment of colors. Please note the new varieties offered in each class.

FOUR LEADING NOVELTIES

GREAT AMERICAN WONDER LEMON

WILL THRIVE AND BEAR BOTH FLOWERS AND FRUIT THE FIRST SEASON IN ANY ORDINARY LIVING ROOM

Fruits Are Immense

Fruits sometimes weigh two pounds. They will grow ten inches in circumference

This is one of the grandest fruits for house culture ever introduced. Hundreds of testimonials have been received from persons who have tried it, testifying to its easy culture, wonderful productiveness and the enormous size and excellent quality of the fruit, some of which weigh as much as two pounds each, and are three times the size of the cut shown herewith. The tree is a strong, vigorous grower and may be kept in a pot or box. Set out in summer and take indoors in winter; requires no coddling, not troubled with insects, and will begin to bloom as soon as fully established; will continue to bear both flowers and fruit continuously every month in the year. The flowers are pure, waxy white and very sweet, like orange blossoms, the leaves are thick, glossy green, and shine as if varnished.

Nice mailing plants, 20 cts. each; larger size, 25 cts. each, 3-yr. size, 75 cts. and \$1.00, by express.

Extract from "The Capitol Journal," Salem, Oregon
"... Mrs. O. D.—'s American Wonder Lemon tree is over 2 ft. high, and has 13 fine lemons on it. It was furnished by The Conard & Jones Co., West Grove, Pa., and is beautiful."

THE BEAUTIFUL DWARF OTAHEITE ORANGE

This beautiful dwarf Orange Tree is one of our most charming house plants, with thick, glossy green leaves and deliciously sweet, pure white flowers. It begins fruiting at once, and bears flowers and lovely golden yellow Oranges all the year round; easily grown and requires very little care. Price, 15 cts., 20 cts. and 25 cts. each, postpaid; larger sizes, 35c. and 50c., by express.

KIN KAN, KUMQUAT, OR JAPANESE GOLD ORANGE

A wonderfully beautiful little Orange Tree, native of Japan, which bears lovely miniature Oranges no larger than a Damson plum. Bright, rich, golden yellow, delightful flavor, and skin so thin the fruit is eaten skin and all; excellent also for crystallizing and preserving. Begins to bloom and bear while quite small. Immensely productive and marvelously beautiful for house and conservatory culture; every one wants it at sight. It is easy to grow, requires no special treatment, and is loaded with flowers and fruit every year. The flowers are one of its great attractions, as they are as large as tuberoses or orange blossoms, and of the same delightful fragrance. Price, good mailing size, 60 cts. each, postpaid; fine, bearing-size trees, 75 cts. and \$1 each, by express.

OLEA FRAGRANS (Sweet Olive)

Smyrna Fig Tree

GENUINE FRUITING FIG

(*Ficus Carica*, a native of Smyrna)

We offer splendid, well-rooted plants of this lovely fruiting tree which, when well established, will bear large crops of delicious Figs. It can be grown outdoors in the South, but in the northern states it should be planted in a large pot or tub so it can be taken to the cellar over winter after it becomes dormant outside. It is easy to grow and one of the most delightful fruits you can plant. The figs grow like a branch from the side of the shoot and are produced on the young wood. Please order early; stock is limited. Mailing-size plants, 40 cts. each, postpaid; larger size, 75 cts. each, by express.

FLOWER SEED DEPARTMENT

This department is entirely distinct from our Rose and Plant business. It is presided over by those who for years have devoted themselves exclusively to the study and handling of the best Flower Seeds and Bulbs to be had. Whether in Europe, Japan, California, or at home, wherever the different varieties reach their greatest perfection—there is our supply obtained. We endeavor, not in premiums, but in the stock furnished, to give full value, and on orders amounting to \$1 or over, we send extras for good measure. We call particular attention to our 1913 Novelties.

For complete index to Flower Seeds and further information of these signs, see page 5. ☉ Annuals; ☉ Biennials; ↵ Green-house Plants; ♀ Perennials; ⤴ Stove Plants; § Climbing Plants.

YOU CAN GROW C. & J. LILY-CANNAS FROM SEED

The accompanying illustration shows the marvelous improvement which has been made in Cannas. The small flower head was taken from a plant of the original native Canna and the large head from one of our latest seedlings. The flowers of the latter are immense, the individual petals measuring over 3 inches across. It is flowers such as these that may be looked for from the **C. & J. Extra Choice New Pedigree Canna Seed** which we offer below.

How to Grow Lily-Cannas from C. & J. Seed

A thing you need to know about Canna seeds is that they have hard shells and are therefore very slow to germinate unless you take the precaution to file or cut a bit of this away.

With small, hard seeds this is difficult, therefore, for the convenience of our customers we have already prepared in this way all the *named* varieties of seeds offered on this page. A pkt. contains about 20 seeds; an ounce 75 to 100 seeds.

When ready to plant, soak seeds in warm water for half a day or more, and then plant indoors, about 1 inch deep. You should get about sixty per cent. to germinate. Transplant to 18 inches apart as soon as ground is warm.

C. & J. seeds are saved from picked flowers only and cannot be duplicated anywhere

C. & J. "Velvet Green" Lawn Grass Seed

FOR SEEDING DOWN NEW LAWNS AND RENOVATING OLD ONES

In seeding down a lawn or grass plot, first, prepare the ground so as to have a fine, smooth seed-bed; second, put on plenty of seed; third, start the lawn mower as soon as weeds are tall enough to catch the machine, and keep them mowed off close till the grass has time to start and become well established. The seed should be lightly raked in and the ground made smooth with a roller.

689 **Caprice.** ⊙ An exceedingly beautiful variety of Climbing Nasturtiums. The flowers are extra-large and include many brilliant shades of crimson, scarlet, orange, yellow, etc. It is named "Caprice" from its great variety of colors and its habit of bearing flowers of different colors on the same plant. Pkt. 5 cts., oz. 15 cts., ¼lb. 40 cts.

OFFER NO. 82a. 1 pkt. each of Madam Gunther's, Caprice, Jupiter, Chameleon and C. & J. Sweet-Scented, for 20 cts., postpaid

686 **Fringed Fire Flame.** ⊙ A most remarkable novelty. The fringed flowers are of the deepest fiery scarlet, and unlike some Nasturtium novelties this variety comes quite true from seed. Pkt. 10 cts., 2 pkts. for 15 cts.

687 **Ivy-Leaved, Tall Mixed, of Many Colors.** ⊙ The leaves have a marked resemblance to the hardy English ivy. Petals of the flowers are quite narrow and, standing well apart, present a striking, star-like appearance. This mixture contains almost every color known in the regular types of Nasturtiums. Pkt. 10 cts., oz. 20 cts., ¼lb. 60 cts., lb. \$2.

688 **Variegated Queen.** ⊙ An entirely new class in Nasturtiums. Every leaf is variegated with yellow, white and green, but in such differing degrees that the plants present a most varied aspect—particularly if each plant is given ample space to climb. Some of the leaves are white and yellow, while others are mostly green, but beautifully blotched and striped. The flowers are a rich scarlet-maroon, deepest at base of petals. Pkt. 10 cts., oz. 25 cts.

Offer No. 82. The above 3 Novelties, 1 pkt. each, 25c.

691 **Jupiter.** ⊙ The flowers are 3½ to 4 inches in diameter and deep, rich golden yellow, very durable and extra-fine for cutting and vases. Pkt. 5 cts., oz. 15 cts., ¼lb. 40 cts.

690 **Chameleon.** ⊙ This is a fine, strong-growing, climbing variety, bearing a profusion of large, richly colored flowers of delightful fragrance and different colors, borne on the same plant. Pkt. 5 cts., oz. 15 cts., ¼lb. 35 cts.

693 **C. & J. Grand Sweet-Scented.** ⊙ The colors range from dark cardinal-red, scarlet, sulphur spotted with crimson, golden yellow, striped and variegated with dark brown and black; the flowers are valued for table decoration, having a rich, spicy, delicious fragrance which is very attractive. Best quality. Pkt. 5 cts., oz. 10 cts., ¼lb. 25 cts.

TOM THUMB GIANT-FLOWERED DWARF or BEDDING NASTURTIUMS

397 **Golden Midnight.** ⊙ New. The best and most unique Nasturtium novelty of recent years. Foliage is clear, golden yellow against which there stand out in most artistic contrast flowers that are almost black—really a deep maroon. Greatly admired everywhere. Pkt. 5 cts., oz. 20 cts., ¼lb. 60 cts.

400 **Queens of Tom Thumb.** New. From the original Queen of Tom Thumbs. Foliage is mottled green and white and the flowers vary from deep scarlet to primrose and some with bronze shades. Pkt. 10 cts., ½oz. 15 cts., oz. 25 cts.

398 **C. & J. Large-Flowering California Mixture.** ⊙ A special mixture of most beautiful and striking colors. Best quality. Pkt. 5 cts., oz. 10 cts., ¼lb. 30 cts., lb. \$1.

399 **Dwarf French Chameleon.** ⊙ Flowers of largest size, of many different shades and markings on the same plant at the same time. Pkt. 5 cts., oz. 10 cts., ¼lb. 30 cts., lb. \$1.

Offer No. 82b. 1 pkt. each of the above 4 Dwarf Nasturtiums for 20c., postpaid.

1913 SWEET PEA NOVELTIES

ORCHID-FLOWERED, OR COUNTLESS SPENCER TYPE

Among recent Sweet Peas novelties there has appeared nothing finer than the new race of "Orchid-Flowered, or Countess Spencer" type, and now the "Duplex" type. The enormous size of the flowers and their wonderful beauty of form will be fully shown to any one who will plant from the following lists. These leaders represent the acme of present-day Sweet Pea culture from the gardens of the foremost originators.

719 New Duplex Spencer. Color is rich cream-pink. The grand flowers are produced on long, stiff stems and are considered the best of all pink Sweet Peas for bouquets. This new "Double Spencer" is the greatest novelty introduced for years. Pkt. of 20 seeds 15 cts., 40 cts. $\frac{1}{4}$ oz., 75 cts. per oz. (See illustration.)

720 Vermillion Brilliant. This is claimed to be "The most brilliant, iridescent scarlet Spencer yet produced." The flowers are of perfect form, borne on stout stems. A grand variety which is always a prize-winner wherever shown. Pkt. of 12 seeds 15 cts.

714 Ethel Roosevelt. A true waved variety of the largest and most perfect Spencer type. The ground color is a soft, pleasing primrose or straw color, overlaid with dainty flakes and splashes of blush-crimson. It is undoubtedly the daintiest and most beautiful of all striped or flaked Sweet Peas. Pkt. of 30 seeds 10 cts.

721 Irish Belle, or Dream. Quite a new shade in Sweet Peas—lovely lilac, flushed with pink, which gives a soft tone to the entire flower. Pkt. of 12 seeds 15 cts. (See cut.)

718 Florence Nightingale. A charmingly soft, clear, rich lavender which is enlivened by a very faint sheen of rose-pink. The flowers sometimes measure 2 inches across. Pkt. of 30 seeds 15 cts.

722 Constance Oliver. One of the most charming of the Spencers. Color, delicate pink suffused with cream; a most beautiful combination. Pkt. of 30 seeds, 15 cts.

Offer No. 88. 1 pkt. each of the above Novelties, the 6 for 50c.

BEST UP-TO-DATE SWEET PEAS

NO FLOWERS ARE EASIER TO GROW OR MORE CERTAIN TO GIVE SATISFACTION

The Culture is very simple—plant the seed 3 or 4 inches deep, in the most convenient place you happen to have, very early in the spring—just as early as possible—February, March, April or May, according to the season and locality. Keep the ground loose and mellow, give the young plants good support to climb on—wire netting, twine or brush. Keep the flowers picked off clean every day as fast as they open (**this is very important**), and they will bloom abundantly for weeks.

NOTE.—Our regular 5-ct. pkts. of Sweet Peas each contain from 80 to 90 seeds, enough for a single row 4 to 6 feet long; 1 oz. contains from 300 to 360 seeds, sufficient for a single row 20 feet long, and ¼lb. is enough for 75 feet of row.

Price: pkt. 5c., any 7 pkts. for 25c. 12 pkts. for 40c., oz. 10c.; in larger quantities, ¼lb. 20c., lb. 60c., postpaid

NEW SELF-WATERING FLOWER BOXES

This shows how flowers will do "down town" where they do not get much sun. Here we have Geraniums, and Mrs. F. Sander Marguerite or Paris Daisy, with Vinca Variegata to droop over the edge. (See offer below.)

ALWAYS NEAT AND SATISFACTORY—EVERY ONE GUARANTEED NOT TO LEAK

Your interest and ours will be mutually served if you order one or more of our self-watering boxes. Their chief merit lies in the fact that plants grow and thrive better in them and blooms will be larger and foliage heavier than in the ordinary surface watered boxes.

The boxes are provided with a self-watering device which renders attention unnecessary except at intervals of from 10 to 20 days. They are made of strong

galvanized iron and painted an attractive green. Through the tube in the corner water is poured into the reservoir (e) underneath the false bottom (d) which supports the soil (b).

Sponges (cc) touch the extreme bottom of box and extend upward into the soil in which the flowers are planted, thus

FROM HOTEL WINDERMERE—CHICAGO

I am pleased to say that we have had your self-watering flower boxes in use for about a year. By their use we have been able to grow our plants in corners and places where the sun does not shine. We can heartily recommend them. Charles G. Moore, Mgr.

FROM A FLORIST

Gentlemen:—Words cannot express my satisfaction in these boxes and baskets. Plants grow better in them but the non-dripping and non-rotting mean more than anything else to me. Very truly yours, A. S. F., Florist, Deansboro, N. Y.

★ ROSE JONKHEER J. L. MOCK Shown on Front Cover

Winner of Gold Medals, Special Awards and Golden Opinions

Like the rest of the Rose-growing world we are enthusiastic in praise of this famous rose which gained the distinction of being winner of the Grand Prize—Highest Award—at the International Rose Show held at Paris. The color is carmine on the outside which contrasts beautifully with the lovely imperial pink of the inside of the flower as the petals unfold and curl, and the exquisite blooms are produced freely on stiff, erect stems. The flowers are large, perfectly formed and highly perfumed. It is one of the hardiest, most valuable and attractive Roses recently introduced. Ask for J. L. Mock. 1 year size 35 cts., postpaid; 2 year size 75 cts.; Star size \$1.25, by express.

C. & J. 1913 "Reputation" Set

*5 Roses on inside front cover from photographs
Shown in natural colors (size much reduced)*

- ★ **MME. EUGENE MARLETT.** We have thoroughly tested this Rose in our trial grounds and unhesitatingly pronounce it one of the *most fragrant, vigorous-growing, abundant-blooming* Roses recently introduced. The flowers are very large, full and double. Color is a rich carmine-red, which does not readily fade out but continues bright a long time. 1-yr., 20 cts., postpaid; 2-yr., 45 cts.; Star size, 75 cts., by express.
- ★ **TAFT ROSE.** Novelties of such high order as this variety appear but few times in a lifetime. We find it one of the most profusely blooming, brightest colored, sweetest scented pink Roses we have ever grown. One of the really good new bedding Roses of recent years with stem enough for satisfactory cutting. Color is rich salmon-pink, shaded at the base with chrome-yellow. 1-yr., 30 cts., postpaid; 2-yr., 60 cts.; Star size, \$1.00, by express.
- ★ **WILLIAM SHEAN.** A glorious Rose and said to be the largest pink Hybrid Tea known. Color is purest pink with delicate ochre veination. Petals shell-shape and 4 to 5 inches long. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 75 cts., by express.
- ★ **WHITE KILLARNEY.** In form, size and freedom of bloom this Rose is the same as the famous Pink Killarney, of which it is a sport, but it is more double and the flowers are pure waxy white. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.
- ★ **LADY HILLINGDON.** New. A beautiful Tea Rose that has created quite a sensation. The blooms are an exquisite shape and color a deep apricot-yellow, shading to orange. Deliciously fragrant. 1-yr., 30 cts., postpaid; 2-yr., 60 cts.; Star size, \$1.00, by express.

➤ **OFFER 198** The above 5 exquisite Roses in 1-year size, \$1.00, postpaid; 2-year size, \$2.25; star size, \$3.75, by express.

- ★ **WHITE MAMAN COCHET.** One of the best white, hardy, everblooming Roses for bedding in lawn or garden. Blooms are large, well-formed and fragrant. Outside petals are tipped pink. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.
- ★ **LADY ROBERTS.** A good healthy grower, and profuse bloomer. Color is reddish apricot passing to deep coppery red with orange shading. 1-yr., 20 cts., postpaid; 2-yr., 40 cts.; Star size, 65 cts., by express.

Dear Sirs:

The Lady Roberts is a perfect wonder. It is a wonderful bloomer and the buds are perfect beyond description.

Yours truly, S. F. W., Byron, Ont., Canada.

- ★ **MARIE VAN HOUTTE (The Gem). Variegated.** Flowers are extra large, very double, full, and deliciously sweet-scented. The color is a lovely canary-yellow passing to creamy white, and beautifully shaded with rich pink. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.
- ★ **GRUSS AN TEPLITZ.** The color is dark, rich crimson, passing to velvety fiery red. One of the brightest colored Roses we know. Flowers are large, full and very sweet. 1-yr., 15 cts., postpaid; 2-yr., 35 cts.; Star size, 65 cts., by express.
- ★ **WM. R. SMITH.** The flowers are large, full and double and most exquisitely formed. The petals are so firm they look like wax, softly curled, colored cream with flesh tint tips, buff yellow base and the center a heart of pink. Perfect buds. Fragrance is delightful. 1-yr., 25 cts., postpaid; 2-yr., 50 cts.; Star size, 75 cts., by express.
